RE: Appointment of Board and ICANN org liaison to GNSO Registration Data Accuracy Scoping Team

Philippe Fouquart
Chair, GNSO Council

Dear Philippe

Thank you for your [letter](#), dated 3 August 2021, requesting an ICANN org liaison to the GNSO's Registration Data Accuracy Scoping Team. ICANN org would be happy to provide support for this work with a liaison from our Global Domains & Strategy (GDS) function.

Brian Gutterman, senior program manager on the GDS team, is currently serving as the GDS liaison to the EPDP Phase 2A team. To provide continuity with that work, we suggest Brian to serve as our liaison to the scoping team. We look forward to hearing more on the progress of the scoping team's important work.

Sincerely,

Göran Marby
President and Chief Executive Officer
Internet Corporation for Assigned Names and Numbers (ICANN)
