A DAY OF DNS ABUSE DISCUSSIONS - SCHEDULE

<p>13:30-15:00</p>	<p>Deep Dive on Phishing</p> <p>Phishing is the most common form of DNS abuse and ensuring you know how to identify and appropriately mitigate phishing will be an important component of meeting new contractual obligations. In this comprehensive deep dive session, we will uncover the various forms of phishing as well as the mitigation approaches to consider. We'll look at real-life phishing examples to help identify the attributes of phishing. We'll also look at how phishing and domains overlap with email, SMS, and social media.</p> <p>By the end of this deep dive session, attendees will be equipped with invaluable insights into the world of phishing, empowering them to identify potential threats proactively and implement robust approaches to mitigation.</p> <p>Graeme Bunton Executive Director, DNS Abuse Institute</p> <p>Jeff Bedser CEO CleanDNS, Inc.</p> <p>Prudence Malinki Head of Industry Relations, MarkMonitor</p>	<p>Vista Ballroom</p>
<p>15:00-15:15</p>	<p>Coffee Break</p>	<p>Vista Foyer</p>
<p>15:15-16:35</p>	<p>Proactive Approaches</p> <p>How can you reduce the amount of abuse mitigation you need to do? This session will discuss the various approaches to reducing abuse before it occurs. We'll discuss multi-factor authentication, anti-fraud tools, attributes of malicious registrations, and registration flows as tools to identify and reduce abuse.</p> <p>Graeme Bunton Executive Director, DNS Abuse Institute</p> <p>Mr Michele Neylon CEO Blacknight Solutions</p> <p>Brian Cimboric Chief Legal and Policy Officer PIR.org</p> <p>Mr. Nguyen Hong Thang Director General Viet Nam Internet Network Information Center (VNNIC)</p>	<p>Vista Ballroom</p>
