Proposed Service

Name of Proposed Service:

Country/Territory Names (.security, .protection, .theatre, .rent)

Technical description of Proposed Service:

\r\nPursuant to Section 4 of Specification 5 of the Registry Agreement, we request the release of country and territory names within .PROTECTION, .SECURITY, .THEATRE, and .RENT. This request includes all such names that appear on the following lists: the short form (in English) of all country and territory names contained on the ISO 3166-1 list, as updated from time to time, including the European Union, which is exceptionally reserved on the ISO 3166-1 list, and its scope extended in August 1999 to any application needing to represent the name European Union; 4.2. the United Nations Group of Experts on Geographical Names, Technical Reference Manual for the Standardization of Geographical Names, Part III Names of Countries of the World; and 4.3. the list of United Nations member states in 6 official United Nations languages prepared by the Working Group on Country Names of the United Nations Conference on the Standardization of Geographical Names.

Consultation

Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?:

\r\nRegistry Operator has not undertaken direct consultation with the community, experts or others. Registry Operator relies on the historical availability of such names in legacy domains, as well as the comments of the Governmental Advisory Committee in its October 2014, 2014 Los Angeles Communiqué whereby it indicated no major concerns about registry operators seeking approval for the release of country names and two-letter and character codes at the second level. Registry Operator seeks approval for the release of country and territory names in the .PROTECTION, .SECURITY, .THEATRE and .RENT TLD. Since such names will be used in similar fashion as in existing ccTLDs and gTLDs, it is almost impossible to anticipate any abuse or misconduct, or that such domain name could be confusing to users or otherwise offensive to any country.

a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?:
