Subject: Upcoming SLA Monitoring System API Update

Dear Colleague,

This is to notify you of an update to the Service Level Agreement (SLA) Monitoring System API (MoSAPI) for registries planned for deployment at the end of the first quarter of 2019.

The MoSAPI will be updated to implement version 2.8.1 of the technical specification, available here.

The update will extend the result codes available in the MoSAPI in order to provide further information regarding an incident. It will not modify the methods or the structure of the responses.

For any questions, please contact ICANN Global Support at: globalsupport@icann.org.

Best regards,

ICANN Technical Services and Registry Services Teams
