RE: Modify Internationalized Domain Name (IDN) Service for RSEP ID: 01138542

On 19 August 2022, Binky Moon, LLC notified ICANN org of Binky Moon, LLC's plans to make certain modifications to its existing Japanese language table associated with its IDN Registry Service for those TLDs identified in Appendix I.

ICANN conducted a review of Binky Moon, LLC's request and determined the modifications did not raise significant Security, Security or competition issues as defined in the RSEP (<https://www.icann.org/resources/pages/registries/rsep/policy-en>). ICANN further determined that implementation of the Registry Service modifications does not require a material change to the Registry Agreements identified in Appendix I. The registry operator is free to deploy the service modifications as proposed.

Sincerely,

DocuSigned by:
