Economiques et Générales

N°29/3.1 

08 JUN 2006

The Minister of Economic and General Affairs

To

**The President and CEO
of ICANN**

Cc : IANA Root Management

Dear Mr President,

Internet is a strategic issue with social and economic impact. In Morocco, we have experienced a rapid growth of the Internet use in the last two years. Unfortunately, this development was not observed through a larger use of the Moroccan domain .ma, due particularly to some weakness in the management of the Moroccan top level domain.

We, as a government, are convinced that ANRT (Agence Nationale de Règlementation des Télécommunications) will manage the .ma top level domain in the interest of the Moroccan Internet community, and believe that it is an appropriate entity for the re-delegation of the management and administration of the .ma.

Therefore, we ask ICANN to consider positively the ANRT .ma re-delegation request in relation to the management and the administration of .ma top level domain.

Ministre Délégué Aupres du Premier Ministre
Charge des Affaires Economiques et Générales

Rachid TALBI EL ALAMI
