Financial disclosure:

I am a shareholder of dotSport LLC, an applicant for the .SPORT string

Representation disclosure:

I am not representing any other party or person through my review team participation.

GNSO Nominee statement:

I joined the ICANN community in September 2001 when I attended my first ICANN meeting in Montevideo, Uruguay. Since then I have attended virtually every one of them except Luxembourg, with the Nairobi meeting being my 27<sup>th</sup>.

I have been an active member of the Commercial and Business Users Constituency ("BC"), joining shortly after my first ICANN meeting. Along the way, I have watched the DNSO transition into the GNSO, and the GNSO transition into the new PDP/working group format. With regard to the recent transition, I am the BC representative on the Operations Steering Committee ("OSC") as well as a member of the GNSO Operations Work Team, which has been tasked with reviewing all of the operating procedures of the new GNSO and recommending changes/amendments where needed.

During the better part of the last decade, I have had the good fortune to work on ICANN consensus policy development within the BC, at the cross-constituency level (ISPC, IPC, ALAC, GAC), and in ICANN public forums. In 2005, as president and CEO of Tralliance Corporation, I signed the contract with ICANN to manage the .TRAVEL TLD. All of this experience gives me the understanding necessary to serve on the AoC Accountability and Transparency Review Team.
