RSSAC review WG final report: implementation steps

December 2010, v2

1. Chronology

- ✓ June 2010: final report delivered and published.
- ✓ 5 August 2010: Board acknowledged receipt of the report, requesting action suggestions from SIC for October meeting

2. This document

This document presents a synoptic table for the WG report, summarizing conclusions/recommendations, actions required, involved actors, timeline and comments. This is a high-level analysis of what needs to be done, detailed action plans shall be developed by staff once so requested. The envisaged timeline is expressed in a proxy form as short (<=6 months), medium (>6 months & <=12 months) or long time-to-completion (>12 months).

The mapping to the original reviewers' recommendations is given in the WG's report.

3. Recommendations, actions needed

Similarly to what has been done for recent reviews, the process can be as follows:

- SIC discusses about the endorsement of each recommendation and agrees on proposed actions, to be reflected in this document
- SIC presents proposed actions (this document edited) for Board approval at the October Board meeting
- Board requests staff to develop a detailed implementation plan, for approval
- Staff presents implementation plan for SIC and Board approval
- Once approved, implementation plan is executed and staff reports progress to SIC (each 3-4 months)

WG Conclusions	Action needed	Actors involved	Timeline	Comments

WG Conclusion: ICANN Bylaws stipulate that the				
initial Chair of the RSSAC is to be elected by the				
ICANN Board, and that subsequent Chairs shall				
be elected by the RSSAC, based on procedures to				
be adopted by RSSAC members. In reality the				
second part of this Bylaws provision was never				
implemented, and the same initial Board-				
nominated RSSAC Chair is still in function since				
1999. This reviewers' recommendation puts into				
practice the provision of ICANN Bylaws, and as				
such is endorsed by the WG. Suggested length of				
tenure and maximum number of terms for the				
future RSSAC Chair are based on standard				
practices, and RSSAC is invited to consider them				
when setting its own operating procedures.				
5. On inward and outward Liaisons:	5.	5.	5.	5.

rationa	le behind reviewers' proposals aimed at				
strengt	thening the relations between RSSAC, SSAC				
and IET	F via the introduction of inward and				
outwa	d Liaisons, and remarks that:				
•	An inward Liaison from SSAC to RSSAC is				
regular	ly appointed, and this process shall be				
mainta	ined;				
•	An outward RSSAC Liaison to SSAC used				
to be a	ppointed, but the position is currently				
vacant	; the WG recommends to fill this vacancy,				
in coor	dination with SSAC;				
•	It is indubitably worth				
discuss	ing/analyzing the recommendation in				
favor o	f the establishment of an inward Liaison				
from IE	TF/IAB, in dialogue with the IETF/IAB.				
The W	G agrees furthermore with the				
recomi	mendation to keep the current RSSAC				
Liaison	to the Board. It does not address the				
recomi	mendation to dismiss the present Liaison				
to the	NomCom, as reviewers presented it as a				
conseq	uence of their envisaged restructuring of				
RSSAC,	which is not discussed in the present				
report.	This recommendation should be analyzed				
	liscussing the overall structure and				
functio	n of the RSSAC.				

6. RSSAC meetings: a) RSSAC to meet at each ICANN meeting with provision for it to hold additional meetings in between; b) Sessions to be public unless a majority of the members believe it appropriate to have a closed session for part of a meeting; c) All Root Server Operators and members of the Board to be invited and to have speaking rights at the discretion of the Chair; d) Other attendees may be granted speaking rights at the discretion of the Chair; lf RSSAC went into closed session under exceptional circumstances and at the discretion of the Chair, the Root Server Operators, ICANN Board, appointed Laisons and technical staff would be invited to join. WG's Conclusion: The WG agrees with reviewers that the conducting of RSSAC meetings at IETF meetings and the low participation of RSSAC meetings in ICANN meetings is one of the reasons whije suggest the running of RSSAC meetings in parallel with IETF meetings. On balance of these remarks, and in view of ensuring a higher level of visibility of RSSAC work to the ICANN communities, it recommends that RSSAC should consider organizing at least one of its yearly meetings in parallel with an ICANN meeting. From the WG agrees with all the residual measures 6 a-d. Dialogus between RSSAC for 1-3 staff Medium-louded in approach for 1-3 staff Medium-louded in approach for 1-3 staff Staff 6 a-d. Staff Medium-louded chaseful of staff Medium-louded in approach for 1-3 staff Staff 8 and SIG/Board/Staff. To be included in approach for 1-3 staff 8 and SIG/Board/Staff. provision for it to hold additional meetings in between; b) Sessions to be public unless a majority of the members believe it appropriate to have a closed session for part of a meeting; c) All Root Server Operators and members of the Board to be invited and to have speaking rights at the discretion of the Chair; d) Other attendees may be granted speaking rights at the discretion of the Chair; If RSSAC went into closed session under exceptional circumstances and at the discretion of the Chair, the Root Server Operators, ICANN Board, appointed Liaisons and technical staff would be invited to join. WG's Conclusion: The WG agrees with reviewers that the conducting of RSSAC meetings in ICANN meetings is one of the reasons why several ICANN community members have poor knowledge of RSSAC operations. However, it is aware that there are operational reasons which suggest the running of RSSAC meetings in parallel with IET meetings. On balance of these remarks, and in view of ensuring a higher level of visibility of RSSAC work to the ICANN communities, it recommends that RSSAC should consider organizing at least one of its yearly meetings in parallel with an ICANN meeting.	6. be separated from L-root operations;				identified very early,
 One administrative, part-time support for 				for developing the
tasks such as meeting support, logistics,				implementation plan.
website maintenance, support to Chair				
between meetings etc.				
WG's Conclusion: The WG considers that this				
recommendation is well-motivated, and				
recommends that –should RSSAC request in this				
sense, ICANN would deliver the required two				
part-time resources so as to support RSSAC				
works. The role of this supporting staff should be				
separated from the managing of the 'L' Root and				
the IANA function.				
From a broader perspective, the WG considers				
that the very coordination of the relation				
between ICANN and the Root Server Operators				
deserves further analysis.				
In general, one remarks that Root Server				
Operators are committed to serving the data				
provided to them by IANA, but otherwise they				
consider themselves to be independent from,				
and only partially related to ICANN.				
ICANN currently has two structural relationships				
with RSSAC: one via IANA, and another one via				
the 'L' Root Server operation. Due to their				

WG Conclusions	Action needed	Actors involved	Timeline	Comments
specific focus and fields of activity, none of these				
operational relations however represents ICANN				
as a whole, to the Root Server Operators.				
The RSSAC review WG recommends that ICANN				
identify a member of the senior management				
team with the duty to represent the whole				
Organization in communications with RSSAC,				
particularly with regard to the operational				
implementation of ICANN policies in the areas of				
new TLDs (new gTLDs, ccTLDS, and IDN TLDs), and				
the continued roll-out of DNSSEC and IPv6. This				
senior contact would then coordinate ICANN				
interaction with RSSAC, either by direct				
involvement or through others, including but not				
necessarily limited to the 'L' Root Operator and				
the IANA staff.				
8. Fund travel and accommodation for RSSAC	8. Planning and agreeing extent	8. Finance staff, RSSAC	8. Medium -	8. Not foreseen in FY
members to and from ICANN meetings and other	with RSSAC, budgeting,	staff, travel support staff	long	2011 budget
relevant technical meetings.	communication to RSSAC			
WG's Conclusion: The WG recommends that				
ICANN funds travel and accommodation for				
RSSAC members to participate in ICANN				
meetings, whenever a RSSAC meeting is				
organized during an ICANN meeting.
