

# Affirmation of Responsibilities Tracking & Brainstorming

May 2011

(Work is ongoing and this record will be updated periodically)

**Color: Initiated after Affirmation of Commitments, 30 September 2009**  
**O:** Ongoing Activity  
**C:** Completed Activity  
**O/C:** Activity is ongoing, but some key elements have been completed

0.	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives <sup>1</sup>	Proposed metrics to assess success (TBD)
1.	3	This document affirms key commitments by DOC and ICANN, including commitments to:				
2.	3(a)	<b>ensure that decisions made related to the global technical coordination of the DNS are made in the public interest and are accountable and transparent;</b>	<ul style="list-style-type: none"> <li>Evaluating public participation processes (PPC).</li> <li>Amended of Article III, section 5 of the ICANN Bylaws to require the posting of Board approved resolutions within two (2) business days after the conclusion of each Board meeting and the posting of the preliminary report within seven (7) business days after the conclusion of each Board meeting. (Board)</li> <li>Instituting changes to public participation process, including</li> </ul>	<p style="text-align: center;">O</p> <p style="text-align: center;">C</p> <p style="text-align: center;">O</p>	<ul style="list-style-type: none"> <li>Explore providing training for community volunteers on fulfilling public interest &amp; accountability objectives.</li> <li>Consider how to provide even more detailed, complete responses to relevant public comment through analysis.</li> <li>(Board) Consider providing statements with each vote on reasons for decisions and address concerns raised by community.</li> </ul>	

<sup>1</sup> Ideas are provided for discussion and consideration and will be incorporated in discussions with the community and Board, as appropriate, and in the annual planning and budgeting process.

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<ul style="list-style-type: none"> <li>ICANN meetings, website, translations, public comment forums (PPC, Staff)</li> <li>• Creating new policy development process (GNSO).</li> <li>• Exploring changes in Board processes (BGC).</li> <li>• Expanded public access to Board meeting information: <ul style="list-style-type: none"> <li>○ As of June 2010, posting translations into 6 UN Languages of Resolutions approved at ICANN Board meetings.</li> <li>○ As of January 2011, posting translations of approved Resolutions for all Board meetings.</li> <li>○ As of March 2011, translations of approved Board Resolutions are posted within 21-days, which is new standard.</li> <li>○ As of March 2011, providing translations of the Minutes of Board meetings within 21-days of Board approval.</li> <li>○ As of January 2011, posting draft and then final rationales for nearly all Board actions.</li> <li>○ As of June 2010, posting Board Briefing Materials along with the Minutes of each Board meeting.</li> <li>○ In March 2011, posted Guidelines for the Posting of Board Briefing Materials to explain process, including redaction processes.</li> </ul> </li> <li>• *Publicly post, and track action on, all ICANN Board resolutions</li> <li>• Evaluating/implementing</li> </ul>	<p style="text-align: center;">○</p> <p style="text-align: center;">○/C</p> <p style="text-align: center;">○/C</p> <p style="text-align: center;">○/C</p> <p style="text-align: center;">○/C</p> <p style="text-align: center;">○/C</p>	<ul style="list-style-type: none"> <li>• (Community) Provide SO &amp; AC statements with each vote on reasons for decisions and address concerns raised by community.</li> <li>• Consider posting detailed explanation of roles &amp; responsibilities of Board, Staff, SOs, ACs, community.</li> <li>• Explore instituting a monitoring system for root operations.</li> <li>• Create metrics to track impact of Board &amp; SO decisions on the public interest. Staff to advocate for amendments to the RAA in the public interest through an open and transparent process</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>transparency &amp; accountability measures through all structural reviews (SIC, SOs, ACs).</p> <ul style="list-style-type: none"> <li>Updating ICANN community “statement of interest” and “code of conduct” requirements (SOs, ACs, Staff)</li> <li>Updating ICANN Staff “code of conduct”. (Staff)</li> <li>Public comment analysis model implemented for new gTLDs</li> <li>SSAC, RSSAC &amp; IETF liaisons on Board</li> <li>Development of Working Group Guidelines (GNSO)</li> <li>Supporting joint ALAC/GNSO efforts to produce amendments to the Registrar Accreditation Agreement (RAA) in the public interest</li> </ul>	<p>O</p> <p>C</p> <p>O</p> <p>O/C</p> <p>O</p> <p>O</p>		
3.	3(b)	preserve the security, stability and resiliency of the DNS;	<ul style="list-style-type: none"> <li>Issued FY10-11 Security, Stability, Resiliency Plan (Staff)</li> <li>Implementing FY10-11 Security, Stability, Resiliency Plan (Staff)</li> <li>Issued Conflicker Summary and Review, including lessons learned for DNS communities’ security improvements</li> <li>Developed “Expedited Registry Security Request procedure for use by gTLD Registries to support DNS stability and security</li> <li>Developed and implemented overall program for continuity and contingency testing,</li> <li>Implemented and tested IANA Business Continuity Plan, including successful IANA Business Continuity Exercises</li> <li>Held 2 Global Annual Symposiums on DNS Security, Stability and Resiliency and</li> </ul>	<p>C</p> <p>O</p> <p>C</p> <p>C</p> <p>C</p> <p>C</p> <p>C</p>	<ul style="list-style-type: none"> <li>Work with/train global operators of name service at root and TLD levels.</li> <li>Develop plan for training &amp; cooperating with resolvers, endpoints and clients, registration services to achieve key SSR objectives.</li> <li>Take steps to promote implementation of recommendations set forth in <a href="#">Fast Flux Report</a> and other GNSO and SSAC reports.</li> <li>Study impact of potential changes to the DNS as a result of proposed key policy changes in advance of policy actions.</li> <li>Staff could advocate for more changes to the RAA that enhance the security, stability and resiliency of the DNS</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>issued "Measuring the Health of the Domain Name System"</p> <ul style="list-style-type: none"> <li>• Carrying out de-accreditation of Registries and bulk transfers of domain names to protect registrants</li> <li>• Implementing JAS evaluation, "IANA Process for Implementing Root Zone Change Requests – Review and Assessment of Risk Management strategy and Comparison of Implementation Options"</li> <li>• High Security Zone Verification Program under consideration</li> <li>• Working with/training ccTLD operators. (ccNSO, Staff)</li> <li>• Deploying &amp; assisting with implementation of DNSSEC (SSAC, Staff)</li> <li>• Evaluating registration abuse to address areas of malicious and illegal conduct involving the DNS. (GNSO)</li> <li>• Ongoing development of reports relating to the security, stability, resiliency of the DNS. (SSAC)</li> <li>• Ongoing WHOIS study effort (GNSO)</li> <li>• Compilation of WHOIS service requirements project (Staff)</li> <li>• Supporting joint ALAC/GNSO efforts to produce amendments to the Registrar Accreditation Agreement (RAA) that enhance the security, stability and resiliency of the DNS</li> <li>• SSAC-GNSO Internationalized Registration Data Working group is developing a technical recommendation for display standards to address increasing presence of non-ASCII registration data.</li> <li>• Implementing, assessing,</li> </ul>	<p>O/C</p> <p>O</p> <p>O</p> <p>O/C</p> <p>O</p> <p>O</p> <p>O/C</p> <p>O</p> <p>O</p> <p>O</p> <p>O</p>

			<p>improving Registry Services Evaluation Process, including public notice and comment process</p> <ul style="list-style-type: none"> <li>Ratified the Proposed Global Policy for Autonomous System Numbers; implementation ongoing</li> </ul>	<p>○</p> <p>C</p>		
4.	3(c)	promote competition, consumer trust, and consumer choice in the DNS marketplace; and	<ul style="list-style-type: none"> <li>Launch of IDN Fast Track process with IDN technical requirements, repeated public status performance updates, public posting of requests through string evaluation, review mechanism.</li> <li>PDP on IDN ccTLDs (ccNSO)</li> <li>Work on DAG/proposed implementation of New gTLD Program underway.</li> <li>Several economic studies concluded</li> <li>IRT and STI groups created to address concerns of trademark infringement, malicious conduct (relating to consumer trust in the DNS marketplace) (GNSO).</li> <li>New RAA, and RAA Revisions &amp; RAA Registrant Rights Charter work. (Staff, GNSO)</li> <li>Published "Non-Lawyers Guide to the 2009 RAA"</li> <li>PDP on Vertical Integration</li> <li>PDP on Post-Expiration Domain Name Recovery (GNSO).</li> <li>PDPs on Inter-Registrar</li> </ul>	<p>C</p> <p>○</p> <p>○</p> <p>C</p> <p>C</p> <p>○</p> <p>○</p> <p>○</p> <p>○</p> <p>○</p>	<ul style="list-style-type: none"> <li>Implement consumer outreach strategy to increase number of registered consumer organizations involved in ICANN.</li> <li>Staff to solicit expert advice in determining how changes to the vertical integration rules affect choice and competition in the DNS marketplace.</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<ul style="list-style-type: none"> <li>Transfer Policy (GNSO).</li> <li>• Ongoing WHOIS study effort (GNSO)</li> <li>• Pending application to create GNSO International Consumer Constituency (Board)</li> <li>• Issued Study on the Prevalence of Domain Names Registered Using a Privacy or Proxy Registration Service</li> <li>• Modified implementation rules for UDRP</li> <li>• Enforcing RAA requirements and terminating Registrar accreditation as needed</li> </ul>	<ul style="list-style-type: none"> <li>O</li> <li>O</li> <li>O</li> <li>C</li> <li>C</li> <li>O/C</li> </ul>		
5.	3(d)	Facilitate international participation in DNS technical coordination.	<ul style="list-style-type: none"> <li>• International participation is facilitated via all ICANN Structures, translation of documents, online forums, ICANN's multilingual website, a range of online newsletters and communication tools, international meetings.</li> <li>• Launched Webinar series and regular podcasts to make ICANN activities and information more accessible to a broader international audience</li> <li>• SSAC-GNSO Internationalized Registration Data Working group developing technical recommendation for display standards to address increasing presence of non-ASCII registration data.</li> <li>• Public participation plan updated, implementation ongoing.</li> <li>• Expansion of remote participation at ICANN</li> </ul>	<ul style="list-style-type: none"> <li>O/C</li> <li>C</li> <li>O</li> <li>O</li> <li>O</li> </ul>	<ul style="list-style-type: none"> <li>• Indicators could be developed to determine distribution of engagement in working group, council, and other policy processes to indicate the breadth of geographic engagement in any given process.</li> <li>• Establish agreements with countries that do not recognize ICANN as a legal entity.</li> <li>• Develop outreach public participation plan to encourage further international participation.</li> <li>• Improve links with IGOs and INGOs, and the UN, in areas relevant to our mission.</li> <li>• Implement a corporate-wide translation policy that meets the reasonable needs of a global community, understanding and considering budget</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>meetings.</p> <ul style="list-style-type: none"> <li>• Significant investment in translation/transcription/interpretation for five UN languages.</li> <li>• IANA outreach and engagement of international community.</li> <li>• Annual gTLD Registrar meetings in Asia &amp; N.America.</li> <li>• DNS security training in international regions</li> <li>• Exploration of DNS Cert comments in international meetings and with ICANN structures (including GAC)</li> <li>• Conducting policy development outreach webinars focused on introducing newcomers to ICANN policy development and how to participate.</li> <li>• Supporting international fellowships and providing community travel funding</li> <li>• International recruiting and appointments to ICANN leadership positions by NomCom</li> <li>• Continue to increase international participation in, and cooperation with, ICANN through a variety of activities, presentations, educational outreach and agreements; agreements include letters of intent, cooperation agreements, memorandums of understanding, and accountability frameworks.</li> <li>• Ongoing participation in IGF public consultations, the multi-stakeholder advisory group (MAG) and many regional IGF preparatory meetings.</li> </ul>	<p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p>	<p>constraints. A reasonable policy that calls for major documents, all announcements, etc to be available in all five UN languages should be developed and funded.</p>	
6.	4	DOC affirms its commitment to a multi-stakeholder,				

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
		private sector led, bottom-up policy development model for DNS technical coordination that acts for the benefit of global Internet users. A private coordinating process, the outcomes of which reflect the public interest, is best able to flexibly meet the changing needs of the Internet and of Internet users. ICANN and DOC recognize that there is a group of participants that engage in ICANN's processes to a greater extent than Internet users generally.				
7.	...	To ensure that its decisions are in the public interest, and not just the interests of a particular set of stakeholders, ICANN commits to perform and publish analyses of the positive and negative effects of its decisions on the public,	<ul style="list-style-type: none"> <li>• Exploring proposals for metrics and analytics.</li> <li>• Publicly posting Board resolutions and tracking their implementation.</li> <li>• CEO, staff using social media and traditional media to publicize results.</li> <li>• Reports on Whois accuracy, proxy services, escrow progress, and the Dashboard (shows growth and stability of TLDs)</li> <li>• AGP consensus policy implementation reports.</li> <li>• Currently, all PDPs include several invitations for public comment; comments are summarized, incorporated into reports and considered by working groups during PDPs, and by the Board prior to acting on any PDP or making any change to consensus policies.</li> <li>• Through its GNSO improvements work, the GNSO is evaluating whether to incorporate procedures for conducting periodic reviews of policies after adoption.</li> <li>• The At-Large Improvements includes the recommendation that processes for providing advice on policy should be</li> </ul>	<p>O</p> <p>O/C</p> <p>O/C</p> <p>C</p> <p>O/C</p> <p>O/C</p> <p>O</p> <p>O</p>	<ul style="list-style-type: none"> <li>• Establish a set of principles as to what constitutes the public interest, and how these will be evaluated</li> <li>• Post registrar &amp; registry compliance status in more detail on an ongoing basis.</li> <li>• Enhance public comment periods and translations on all PDPs and Board actions.</li> <li>• Expand use of plain language writing, further improve web site, define consistent translation policy.</li> <li>• Consider how to further capture and factor in views of non-participants to achieve outcomes that meet the broader public interest.</li> <li>• Report on effectiveness of GNSO Improvements and implementation of other review recommendations over time</li> <li>• Develop methods of determining consensus levels within the GNSO that moves away from strict voting percentages but takes into account representation across all stakeholder groups</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			strengthened with ALAC for the development of policy advice, within SOs for requesting input from ALAC on policy issues from SOs, ACs, and the Board to provide feedback on how ALAC advice has been used.			
8.	...	... including any financial impact on the public,	<ul style="list-style-type: none"> <li>• Budget developed through public consultation, formally adopted by the Board, and Registrars approve their fee structure.</li> <li>• Dashboard/website provides public with range of financial information, including: <ul style="list-style-type: none"> <li>· Monthly financial performance</li> <li>· Reserve Fund performance</li> <li>· Compliance with ICANN's Investment Policy</li> <li>· ccTLD revenue contributions compared over multiple years</li> <li>· Revenue and expense views aligned by ICANN community groups</li> </ul> </li> <li>• Form 990 (IRS information return) posted online which includes financial information, compensation of executives and officers.</li> <li>• Travel costs for Board members posted each year per bylaws.</li> <li>• Travel costs for community members posted after each meeting.</li> <li>• Financial policies (e.g., procurements, cost accounting, investment policies) posted on website.</li> <li>• Significantly more details are publicly provided on ICANN's budget, including how spending aligns with the strategic plan</li> <li>• Community feedback on the budget and communications on</li> </ul>	<p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>C</p> <p>O/C</p>	<ul style="list-style-type: none"> <li>• Include initial financial impact analysis in policy work of AC's and SO's.</li> <li>• Provide statement of impact before and after Board decisions.</li> <li>• Net benefits of organization reviews.</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>how each public/community comment was addressed is publicly posted</p> <ul style="list-style-type: none"> <li>The current GNSO Improvements work team charged with to revising the PDP is evaluating how to better assess impact of its policies on various stakeholder groups.</li> <li>SGs/constituencies today are asked to provide descriptions of the impact of pending policy proposals (financial and otherwise) on their communities as part of the current (and proposed) PDP, early on following the formation of a WG.</li> <li>The At-Large Improvements plan includes developing accurate cost models for At-Large activity.</li> </ul>	<p>O/C</p> <p>O</p> <p>O</p> <p>O</p>		
9.	...	... and the positive or negative impact (if any) on the systemic security, stability and resiliency of the DNS.	<ul style="list-style-type: none"> <li>SSAC produces and publishes work products of impact on SSR of DNS</li> <li>"Staff Implementation Notes" are provided for policies under development by SOs.</li> <li>The new PDP and Working Group model being developed as part of the Board-mandated GNSO Improvements should include the development of metrics to assess the effectiveness of policy changes and the quality of each major policy working group that is convened. However, the current thought of the WT seems to be that it should be up to each WG to suggest metrics to assess effectiveness as it might be difficult to come up with general metrics that would apply to all policies.</li> <li>Root signed; developed/implemented the key signing authentication strategy and conducted the ceremony which initiated the authentication</li> <li>DNSSEC implementation underway; workshops are being</li> </ul>	<p>O/C</p> <p>O/C</p> <p>O</p> <p>C</p> <p>O/C</p>	<ul style="list-style-type: none"> <li>Include initial analyses of SSR in policy work of AC's and SO's.</li> <li>Provide statement on impact before and after Board decisions..</li> <li>Develop benchmarks (ICANN Security Team and community) on impacts on SSR of DNS.</li> <li>Clarify roles and responsibilities, e.g. root server operators.</li> <li>Publish service level agreements and operating principles of L Root service.</li> <li>Enhance coordination among SO's and AC's to respond to SSAC advisories affecting the SSR of DNS</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>conducted at each ICANN meeting with wide community participation.</p> <ul style="list-style-type: none"> <li>• ICANN response plans and DNS Collaboration in place (eg. Conficker).</li> <li>• gTLD Registry Continuity Plan in place.</li> <li>• Registry Services Technical Evaluation Panel – implementation</li> <li>• Coordination with SSAC, RSSAC.</li> <li>• L-Root Operations</li> <li>• IANA new gTLD planning underway.</li> <li>• IANA Contingency Plan in place.</li> <li>• ICANN BCP &amp; traveler security plan in place.</li> <li>• Exploration of DNS Cert proposal ongoing.</li> </ul>	<p>C</p> <p>C</p> <p>O</p> <p>O</p> <p>O</p> <p>O</p> <p>C</p> <p>C</p> <p>O</p>		
10	5	DOC recognizes the importance of global Internet users being able to use the Internet in their local languages and character sets,				
11	...	... and endorses the rapid introduction of internationalized country code top level domain names (ccTLDs), provided related security, stability and resiliency issues are first addressed.	<ul style="list-style-type: none"> <li>• IDN ccTLD fast-track in implementation.</li> <li>• IDN new gTLDs implementation proposals under development.</li> <li>• SOs &amp; ACs are engaged in working groups focused on enhancing use by an international community, including the Joint IDN Working Group, and the Joint SSAC-GNSO Internationalized Registration Data Working Group.</li> <li>• At-Large has an active <a href="#">IDN Policy WG</a> and an IDN liaison.</li> </ul>	<p>O/C</p> <p>O</p> <p>O</p> <p>O</p>	<ul style="list-style-type: none"> <li>• Establish a reporting system that allows us to measure IDN-specific and IRD-specific abuses. Work with security/charset experts to better understand the abuse paths.</li> <li>• Ask all ccTLDs to agree to SSR terms (i.e., no wildcards).</li> </ul>	
12	7	ICANN commits to adhere to transparent and accountable budgeting processes,	<ul style="list-style-type: none"> <li>• Strategic planning is linked to spending and both are community-developed.</li> </ul>	<p>C</p>	<ul style="list-style-type: none"> <li>• Expand planning process to obtain more formal input from the SOs and ACs and</li> </ul>	

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<ul style="list-style-type: none"> <li>Budget process is increasingly detailed; more/better information posted each year and public comment efforts continue to expand (see details above).</li> <li>Published explicit description of how ICANN's cost accounting categories align with the strategic plan.</li> <li>Dashboard publicly posted (see details above).</li> <li>Expanded public, online reporting of Executive compensation</li> </ul>	<p>C</p> <p>C</p> <p>C</p> <p>C</p>	<p>more specific input on funding and budget.</p> <ul style="list-style-type: none"> <li>Publish better operational benchmarks.</li> <li>Develop indicators to demonstrate budget expenditure that is in pursuit of strategic plans and the value of the expenditure.</li> </ul>	
13	...	... fact-based policy development,	<ul style="list-style-type: none"> <li>Currently Staff makes best efforts to include information to support fact-based policy development efforts in all Issues Reports, but with a very short deadline of 15 days currently mandated, complex issues cannot be addressed adequately.</li> <li>Revamping GNSO Policy Development Process to ensure efficient, informed and more fact-based policy development</li> <li>GNSO is conducting WHOIS studies to provide data to inform the Community on future revisions to WHOIS policy.</li> </ul>	<p>O/C</p> <p>O</p> <p>O/C</p>	<ul style="list-style-type: none"> <li>Proposals for new PDP and WG models focus on the need for issue scoping, and greater time and funding for fact-finding and data gathering in order to ensure informed policy making. That said, it should also be the responsibility of the community to come forward with information and data, and/or identify areas that need further data gathering.</li> <li>Considering more budget and focus on research efforts.</li> <li>Improve ICANN working relationship with the technical community</li> </ul>	
14	...	... cross-community deliberations,	<ul style="list-style-type: none"> <li>Reviewing Policy Development Processes to ensure timely and constructive cross-community deliberations and participation, including consideration of how to</li> </ul>	<p>O</p>	<ul style="list-style-type: none"> <li>Ensure appropriate factual reports and analyses are available in advance of launching policy development processes.</li> </ul>	<ul style="list-style-type: none"> <li>Track the outcome of a   appropriate to each poli hard to develop and agr</li> </ul>

#	§	Affirmation of Commitments	Activities underway to meet AoC objectives	Status	Ideas under Staff discussion to better meet AoC objectives	Proposed metrics to assess success (TBD)
			<p>improve the quality and diversity of public comments.</p> <ul style="list-style-type: none"> <li>• ICANN operations (ie. IANA, Compliance, etc.) emphasize cross-community dialogue</li> <li>• Structural Improvements (SOs and ACs) include recommendations to enhance cross-SO/AC communications, especially on issues of mutual interest.</li> <li>• SOs, ACs liaison structure is expanding.</li> <li>• SO and AC Chairs group is expanding cross-community efforts.</li> <li>• Numerous working groups involving multiple SOs and ACs are ongoing.</li> <li>• SOs and ACs conduct joint meetings at ICANN events.</li> <li>• CEO holds cross-community lunches at ICANN international meetings.</li> <li>• CEO holds meet-ups with international community</li> </ul>	<p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p>		
15	...	... and responsive consultation procedures that provide detailed explanations of the basis for decisions,	<ul style="list-style-type: none"> <li>• <b>More detailed Board minutes are now posted within 48 hours of meeting.</b></li> <li>• <b>Board briefing materials are publicly posted</b></li> <li>• <b>Immediate release of information on ICM Independent Review Process, and extensive information publicly posted for IRP cases.</b></li> <li>• GNSO, ccNSO policy development procedures under review/change</li> <li>• GNSO, ccNSO, ALAC communications are recorded, transcribed, and posted publicly</li> <li>• The ALAC uses a <a href="#">Policy Advice</a></li> </ul>	<p>O/C</p> <p>O/C</p> <p>C</p> <p>O/C</p> <p>O/C</p> <p>O/C</p>	<ul style="list-style-type: none"> <li>• Consider publicly posting recordings of Board meetings.</li> <li>• Provide Board members with template explanation to complete for each decision, collate and publicly post.</li> <li>• Improvements to the web site to provide better access to posted information</li> <li>• Better benchmarks and tools to assess public participation could be developed.</li> <li>• Benchmarks could be used to track cross-community communications (e.g. meetings on policy,</li> </ul>
