***Rationale for Resolutions 2019.11.07.xx***

The resolutions taken here today fulfill ICANN's responsibility, as the sole member of PTI, to annually elect the President of PTI and elect Directors to the Board. The regular election of a PTI President and elections of Directors will allow the PTI Board to continue its work.

The election of the PTI President and Board directors are taken fully in line with the obligations as set forth in the PTI Bylaws, and respectful of the community's recommendations of the proposed composition of the Board.

These actions confirm ICANN's continued commitment to its Bylaws ICANN's obligations surrounding the performance of the IANA Functions that are contracted to PTI. This also directly serves ICANN's mission to ensure the stable and secure operations of the Internet's unique identifiers, and serves the public interest in the continued stable performance of the IANA functions.

None of the actions taken today are anticipated to have any impact on the security, stability or resiliency of the DNS, though PTI is essential to ICANN's security, stability and resiliency work. There are resource implications in supporting PTI, which are reflected in the PTI, IANA and ICANN Budgets.

The appointment of the PTI President and the appointment of the PTI Board are Organizational Administrative Functions for which public comments were not necessary.
