To:
Cherine Chalaby, Chair of ICANN Board
CC:
Manal Ismail, Chair of the GAC

Dear Cherine and members of the ICANN Board,

On behalf of the GNSO Council, we are hereby transmitting to you the review by the GNSO Council of the Marrakech GAC Communiqué, which was unanimously adopted by the Council during its meeting on 18 July 2019.

The GNSO Council’s review of each GAC Communiqué is an effort to provide feedback to you, in your capacity as members of the ICANN Board, as you consider issues referenced in the Communiqué that we believe relate to policies governing generic Top-Level Domains. Our intent is to inform you and the broader community of gTLD policy activities, either existing or planned, that may directly or indirectly relate to advice provided by the GAC. The GNSO Council hopes that the input provided through its review of the GAC Communiqué will enhance co-ordination and promote the sharing of information on gTLD related policy activities between the GAC, Board and the GNSO.

On behalf of the GNSO Council

April 2019 acceptable and directing the ICANN org to continue processing of the .AMAZON applications delegation of sensitive strings that the GAC has stressed as raising public policy concerns in future. Several members referenced the ICANN60 Abu Dhabi Communiqué, where:

a) in section “V. Follow-up on Previous Advice”, with regard to the “Application for .amazon and related strings”, “[t]he GAC expressed the need to find a mutually acceptable solution in the case of the .Amazon gTLD applications for the countries affected and for the Amazon corporation”; and

b) in section “VII. GAC Consensus Advice to the Board”, with regard to “Applications for .amazon and related strings”, “[t]he GAC recognizes the need to find a mutually acceptable solution for the countries affected and the Amazon corporation to allow for the use of .amazon as a top level domain name”.

Several members also referenced the letter the GAC sent to the Board on 15 March 2018 in response to the Board’s request for “new or additional information to provide to the Board regarding the GAC’s advice that the Amazon applications should not proceed”, where it was stated that “the GAC does not have any additional information to provide to the Board on this matter, beyond referring to the GAC Abu Dhabi Communique.”

Some members did not necessarily agree with the basis of these concerns as articulated above nor with the interpretation of GAC advice on this subject.

On another note, some GAC members during the discussion with the ICANN Board, urged all parties to exhaust all means consistent with applicable procedures to facilitate a mutually acceptable solution.

This request for a written response from the Board should be considered a follow-up to the GAC-Board
