Dear Steve,

Thank you for the opportunity to speak at ICANN51 on the vital role that institutions such as ICANN play in multistakeholder governance of the global Internet. It was also a pleasure meeting you and the other board members at the reception and learning more about ICANN's key opportunities and challenges. I appreciate your and ICANN's commitment to preserving the free and open Internet, and I look forward to championing these issues together.

As I mentioned when we met, please consider me an ally and an advocate for the important work you do. If there is anything I should know as Secretary of Commerce, please do not hesitate to contact Andrew Grotto in my office. He can be reached at (202) 482-1566 or agrotto@doc.gov.

Sincerely,
