Re: .wiki Request for Two-Character SLD RSEP

Dear Raymond King,

ICANN has conducted a preliminary review of RSEP Ticket ID N4S5Y-0D7C0 to introduce two-character domains to the marketplace, in accordance with the Registry Services Evaluation Policy and process provided at: <https://new.icann.org/resources/pages/policy-bd-2012-02-25-en>.

Based on the information provided, ICANN's preliminary review did not identify any significant competition or security and stability issues. Implementation of your proposal is the first type of request in the new gTLD space and would require an amendment to the .wiki Registry Agreement between Top Level Design, LLC and ICANN (dated 07 November 2013). As a result, ICANN will post the amendment for public comment.

ICANN looks forward to working with you on the proposed amendment that will be posted for public comment, and will provide amendment language to help facilitate discussions.

If you have any questions, please respond back to the GDD Portal via the case comment feature.

Regards,  
Registry Services Team
