RE: NOTICE OF BREACH OF REGISTRAR ACCREDITATION AGREEMENT

Dear Mr. He,

Please be advised that as of 7 August 2013, Xin Net Technology Corporation (“Xin Net”) is in breach of its Registrar Accreditation Agreement (“RAA”) with the Internet Corporation for Assigned Names and Numbers (“ICANN”) dated 16 September 2009 (“RAA”). This breach results from:

- Repeated failure to escrow gTLD registration data pursuant to Section 3.6 of the RAA.

Please refer to the attachment for details regarding this breach.

ICANN requests that Xin Net cure this breach by 28 August 2013, 15 working days from the date of this letter, by taking the following action:

- Deposit gTLD registration data on a weekly basis to Iron Mountain Intellectual Property Management, Inc. (“Iron Mountain”) and ensure the deposits meet the required specifications.

If Xin Net fails to timely cure this breach and deposit the required data beginning 28 August 2013, ICANN may commence the RAA termination process.

Mr. John He
Xin Net Technology Corporation

ATTACHMENT

Failure to Escrow gTLD Registration Data

Section 3.6 of the RAA requires registrars to submit electronic copy of the database described in Subsection 3.4.1 of the RAA to ICANN, or at registrar's expense, to a reputable escrow agent mutually approved by the registrar and ICANN. Registrars shall submit the data on a schedule, under the terms, and in a format specified by ICANN.

ICANN's records show that Xin Net is required to escrow data with Iron Mountain on a weekly basis. However, based on the reports provided by Iron Mountain, since February 2013 Xin Net failed to make data deposits that comply with the requirements of ICANN's data escrow specifications.

Xin Net's repeated failure to comply with ICANN's data escrow specifications constitutes a breach of Section 3.6 of the RAA.

Chronology:

Date of Notice	Deadline for Response	Details
19-Feb-13	26-Feb-13	ICANN sent a compliance notice via e-mail to admin1@xinnet.com regarding Registrar's failure to make full weekly deposits. No response received.
26-Feb-13	N/A	ICANN initiated a conference call with Registrar to discuss data escrow noncompliance. ICANN provided clarification and agreed to discuss the matter further via subsequent conference calls.
