RE: NOTICE OF BREACH OF REGISTRAR ACCREDITATION AGREEMENT

Dear Mr. Lucke,

Please be advised that as of 25 April 2013, DNS:NET Internet Service GmbH (DNS:NET) is in breach of its Registrar Accreditation Agreement (“RAA”) with the Internet Corporation for Assigned Names and Numbers (“ICANN”) dated 7 April 2009 (“RAA”). These breaches result from DNS:NET’s failure to timely respond to ICANN’s Contractual Compliance Audit Program notices, specifically:

- Failure to provide documents and information requested pursuant to an ICANN audit, as required by Section 3.14 of the RAA;
- Failure to maintain registration records as required by Section 3.4.2 of the RAA;
- Failure to make registration records available upon request by ICANN, as required by Section 3.4.3 of the RAA.

In addition, DNS:NET has been deemed noncompliant in the following areas:

- Failure to give ICANN written notice within 30 days of any change to Registrar's contact information, as required by Section 5.11 of the RAA.
- Failure to pay past due accreditation fees pursuant to Section 3.9 of the RAA.

Please refer to the attachment for details regarding these breaches.

ICANN requests that DNS:NET cure these breaches by 16 May 2013, 15 working days from the date of this letter, by taking the following actions:

1. Provide the following documents and information:

- A current certificate of insurance
- Proof that registrar's public contact details are on registrar's website
- Proof that registrar is providing a port 43 Whois service providing free public query-based access to up-to-date data
- Payment records for a specific domain name (contact contractualcompliance@icann.org for details)
- Form of Authorization (FOA) or AuthInfo Code documentation for six domain names (contact contractualcompliance@icann.org for details)
- Records reflecting that Registered Name Holders entered into registration agreements concerning 16 domain names (contact contractualcompliance@icann.org for details).

2. Pay all past due accreditation fees in the amount of \$1,314.52. Please see the enclosed customer statement for details; and

3. Update the data in RADAR to reflect the correct link to DNS:NET's website. Please download and complete the primary contact update form <http://www.icann.org/en/registrars/primary-contact-update-form-en.pdf> and fax it to ICANN at +1-310-823-8649.

If DNS:NET fails to timely cure these breaches and provide the requested information, ICANN may commence the RAA termination process.

ATTACHMENT

1. Failure to Retain Registered Name Holder and Registration Data and Failure to Make Such Data Available for Inspection and Copying

Section 3.4 of the RAA requires registrars to maintain Registered Name Holder and registration data and make those records available to ICANN upon reasonable notice.

As part of an audit, ICANN requested that DNS:NET make registration records available to ICANN concerning specific domain names. DNS:NET's repeated failure to provide the registration records requested is a breach of Sections 3.4.2 and 3.4.3 of the RAA.

2. Failure to Timely Respond to Audit Requests for Information and Data

Section 3.14 of the RAA requires registrars to timely provide documents and information requested by ICANN as part of a contractual compliance audit.

ICANN sent DNS:NET three notices regarding requests for documents and information pursuant to an ICANN audit and three reminder notices. As detailed in the chronology below, DNS:NET failed to provide all of the documents and information requested by ICANN.

3. Failure to Timely Pay Required Fees

Section 3.9 of the RAA requires registrars to timely pay accreditation fees to ICANN, consisting of yearly and variable fees. DNS:NET currently owes ICANN \$1,314.52 in past due accreditation fees.

DNS:NET failed to comply with its obligation to timely pay accreditation fees which constitutes a breach of Section 3.9 of the RAA.

4. Failure to Update Contact Information

Section 5.11 of the RAA requires DNS:NET to notify ICANN within thirty (30) days of any change to its contact information.

ICANN's attempts to access DNS:NET's website using the link provided by DNS:NET were unsuccessful, as the link is inoperable. ICANN observed that DNS:NET has a functional website, but DNS:NET has not provided a link to its new website to ICANN. DNS:NET's failure to notify ICANN of its new contact information constitutes a breach of Section 5.11 of the RAA.
