Failure to submit to ICANN annual Compliance Certificate

Section 3.15 of the RAA requires registrars to complete and deliver to ICANN within twenty (20) days following the end of each calendar year, in a form specified by ICANN a certificate executed by the president, chief executive officer, chief financial officer or chief operating officer (or their equivalents) of Registrar certifying compliance with the terms and conditions of the RAA (“Compliance Certificate”).

As detailed in the chronology, ICANN sent Namevault three compliance notices concerning the required Compliance Certificate, and requested that Namevault deliver to ICANN a Compliance Certificate. Namevault failed to respond to these notices in breach of Section 3.15 of the RAA.

Failure to provide publish required information on website

Section 3.17 of the RAA requires registrars to publish on each website through which Registrar provides or offers Registrar Services the information specified in the Registrar Information Specification. Namevault’s failure to publish the required information on its website is a breach of Section 3.17 of the RAA.

Failure to establish and maintain a dedicated abuse point of contact

Section 3.18.1 of the RAA requires registrar to publish an email address on the home page of registrar’s website to receive reports of abuse. Namevault’s failure to publish an abuse email address on the home page of its website is a breach of Section 3.18.2 of the RAA.

Failure to publish registrar’s description of procedures for the receipt, handling, and tracking of abuse reports on its website

Section 3.18.3 of the RAA requires registrars to publish on its website a description of its procedures for the receipt, handling, and tracking of abuse reports. The website of Namevault does not describe these procedures in breach of Section 3.18.3 of the RAA.

Failure to provide an email address and telephone number to receive reports of abuse in Whois output

Section 1.4.2 of the Registration Data Directory Service (Whois) Specification of the RAA requires registrars to include an email address and telephone number in the Registration Data Directory
Service (Whois) output. Namevault’s failure to include this information in Whois output is in breach of Section 1.4.2 of the Registration Data Directory Service (Whois) Specification of the RAA.

Failure to pay accreditation fees

Section 3.9 of the RAA requires registrars to timely pay accreditation fees to ICANN, consisting of yearly and variable fees. Namevault owes ICANN $4,883.05 in past due accreditation fees, in breach of Section 3.9 of the RAA.
