9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited
Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\(^4\) For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

\(^6\) A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community.” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. 8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

---

17 Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtdresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3
15 http://music.us/board/
email authentication verification process; a priority-based launch phase\(^\text{17}\) for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \(^\text{18}\) a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\(^\text{19}\) the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\(^\text{20}\) that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\(^{17}\) Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

³ [http://music.us/events](http://music.us/events)
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailed Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: [...] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailed registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtdresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” as “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1,562 out of 2,084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf} Fielding Period: August 7-11, 2015, Pg. 1,2,3

\textsuperscript{14} \url{https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392}, 20a

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;  

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;  

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.  

4. is the only .MUSIC applicant without a formal Community Objection filed against it;  

---

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c  
3 http://music.us/events  
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).  
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in
the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly
defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness
and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of
membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on
categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing
.HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition
that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a
community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE
Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition
that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as
well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the
community include, but are not limited to the following: […] Entities, including natural persons who have a
legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as
there is demonstrable involvement in community-related activities that may vary among member constituent types
(e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating
that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable
involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This
involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the
community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with
the goals of the community i.e. are aligned with the community’s mission and purpose.

However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

Title: Producer

Organization/Artist Name: Daunpatrol Recording Studios

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”...aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Bryan Bell

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.2

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;3

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,4 FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.5

4. is the only .MUSIC applicant without a formal Community Objection filed against it;6

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment7…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”8

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”9 that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;10

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity; significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf}

Fielding Period: August 7-11, 2015, Pg. 1,2,3

\textsuperscript{14} \url{https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392}, 20a

\textsuperscript{15} \url{http://music.us/board/}

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, \textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \texttt{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \texttt{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: eliseclifton@yahoo.com, Nov 5 '15 ip: 75.65.18.112

Name: Elise Clifton

Title: Independent singer, songwriter, recording artist

Organization/Artist Name: Gail Elise Clifton and the DeSoto Combo

---

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching11 or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people12) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”13 In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”14) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;15

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.16 These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

8. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

9. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: eddielopezz@gmail.com, Nov 5 '15  ip: 162.205.2.141

Name: frank e,lopes

Title: independant artist

Organization/Artist Name: eddielopezz

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;{2}

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;{3}

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,{4} FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.{5}

4. is the only .MUSIC applicant without a formal Community Objection filed against it;{6}

---

{2} https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 18a and 20c
{3} http://music.us/events
{4} For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
{5} http://music.us/supporters and https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadattachment/142588?ac=1392
{6} A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with its community-based Purpose and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus, and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, \textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Name: Pat Bateman

Title: Singer/songwriter/musician

Organization/Artist Name: Otis Kry

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---
² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf}

Fielding Period: August 7-11, 2015, Pg. 1,2,3

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: [...] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature:  quadcountrymusic@gmail.com, Nov 5 ’15 ip: 75.173.69.71

Name: Frank Owen

Title: Musician

Organization/Artist Name: Quad Country Music

¹ [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;  

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;  

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.  

4. is the only .MUSIC applicant without a formal Community Objection filed against it;  

---

3 [http://music.us/events](http://music.us/events)  
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).  
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: notehead@sbcglobal.net, Nov 5 '15 ip: 23.113.40.117

Name: Barry Littler

Title: Composer

Organization/Artist Name: Barry Littler

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic's defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, http://music.us/nielsen-harris-poll.pdf

\textsuperscript{14} https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

\textsuperscript{15} http://music.us/board/

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-status/applicationdetails:downloadattachment/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations."

5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3

1  https://gtldresult.icann.org/application-result/applicationstatus/appl icationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” as “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3
14 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?;ac=1392, 20a
15 http://music.us/board/
email authentication verification process; a priority-based launch phase\(^\text{17}\) for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \(^\text{18}\) a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias\(^\text{19}\), the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\(^\text{20}\) that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\(^{17}\) Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, [http://merriam-webster.com/dictionary/substantial](http://merriam-webster.com/dictionary/substantial), Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See [http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm](http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm)). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

15. [http://music.us/board/](http://music.us/board/)

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias\textsuperscript{19}, the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Organization/Artist Name: Solo/Roadside Attraction

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self-identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community.” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories.” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and [amateur] stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3
14 https://gtdresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
15 http://music.us/board/
email authentication verification process; a priority-based launch phase\(^{17}\) for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \(^{18}\) a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, \(^{19}\) the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments \(^{20}\) that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\(^{17}\) Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: Rhonda Denet

Name: Rhonda Denet

Title: Vocalist, Songwriter, Band Leader

Organization/Artist Name: Rhonda Denet Music

---

1 [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;¹

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Re: Support for .MUSIC Community-based Application\(^1\)

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

\[\text{Signature:} \quad \text{Name:} \quad \text{Valentin} \]

\[\text{Name:} \quad \text{Valentin} \quad \text{Title:} \quad \text{Bassist} \]

\[\text{Organization/Artist Name:} \quad \text{ASEA} \]

\(^{1}\) [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment...aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: [...] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic's defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, http://music.us/nielsen-harris-poll.pdf

Fielding Period: August 7-11, 2015, Pg. 1,2,3

\textsuperscript{14} https://gtdresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ta=1392, 20a

\textsuperscript{15} http://music.us/board/

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf}

\textsuperscript{14} \url{https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392}, 20a

\textsuperscript{15} \url{http://music.us/board/}

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

---

1 [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\(^\text{11}\) or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\(^\text{12}\)) and associated with the identification of the community defined. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector\textsuperscript{16}. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: rashidlatta@gmail.com, Nov 5 '15 ip: 70.192.214.11

Name: Rashid Latta

Title: Owner

Organization/Artist Name: Shid Latta

---

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;¹

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
² http://music.us/events
³ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁵ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are sole community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: lance.doss@gmail.com, Nov 5 '15 ip: 47.19.212.198

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

15 http://music.us/board/
email authentication verification process; a priority-based launch phase for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

---

17 Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: [Signature]
Name: Lee Neese
Title: Mr
Organization/Artist Name: August Never Sleeps

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadattachment/142588?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?r:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1,562 out of 2,084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community,” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories that are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who [s]elf identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;  

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings; 

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others. 

4. is the only .MUSIC applicant without a formal Community Objection filed against it;  

---

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment... aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtdresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfillment the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”9 that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:10

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: [...] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people¹²) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”¹³ In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”¹⁴) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;¹⁵

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.¹⁶ These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

¹¹ According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

¹⁴ Fielding Period: August 7-11, 2015, Pg. 1,2,3

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature:  josephamusic@gmail.com, Nov 5 '15  ip: 128.177.161.154

Name: Joseph Macias

Title: Hip Hop Artist

Organization/Artist Name: Joseph AM

¹ [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.\(^2\)

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;\(^3\)

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.\(^4\)

4. is the only .MUSIC applicant without a formal Community Objection filed against it;\(^5\)

\(^{3}\) [http://music.us/events](http://music.us/events)

\(^{4}\) For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

\(^{6}\) A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). 1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392; 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”7 aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”8

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”9 that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;10

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.
8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\begin{itemize}
  \item [\textsuperscript{11}] According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

1 [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination; 2

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings; 3

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, 4 FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others. 5

4. is the only .MUSIC applicant without a formal Community Objection filed against it; 6

---

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

--

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, http://music.us/nielsen-harris-poll.pdf

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

---

17 Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”\(^7\)…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”\(^8\)

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”\(^9\) that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:\(^10\)

---

\(^7\) The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature:  peter@cityfolkmusic.com, Nov 5 ‘15  ip: 71.70.241.37

Name: Peter Smith
Title: Mr
Organization/Artist Name: CityFolk Music

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. 1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community.” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories.” Pg. 2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf}

\textsuperscript{14} \url{https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392}, 20a

\textsuperscript{15} \url{http://music.us/board/}

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias\textsuperscript{19}, the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;\(^2\)

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;\(^3\)

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,\(^4\) FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.\(^5\)

4. is the only .MUSIC applicant without a formal Community Objection filed against it;\(^6\)

---

\(^3\) [http://music.us/events](http://music.us/events)

\(^4\) For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

\(^6\) A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” as “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.2

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;3

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,4 FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.5

4. is the only .MUSIC applicant without a formal Community Objection filed against it;6

---

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringement websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self-identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string.

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

15 http://music.us/board/
email authentication verification process; a priority-based launch phase\(^\text{17}\) for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\(^\text{19}\) the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\(^\text{20}\) that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

---

\(^{17}\) Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-status/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”...aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

¹ [Link](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”...aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\(^\text{11}\) or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\(^\text{12}\)) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\(^\text{13}\) In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\(^\text{14}\)) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\(^\text{15}\)

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\(^\text{16}\) These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\(^{11}\) According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, [http://merriam-webster.com/dictionary/substantial](http://merriam-webster.com/dictionary/substantial), Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See [http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm](http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm)). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\(^{13}\) Nielsen / Harris Poll, Quick Query Q3505, [http://music.us/nielsen-harris-poll.pdf](http://music.us/nielsen-harris-poll.pdf)

\(^{15}\) [http://music.us/board/](http://music.us/board/)

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,“ Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known
\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, http://music.us/nielsen-harris-poll.pdf
\textsuperscript{14} https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 20a
\textsuperscript{15} http://music.us/board/
email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: gate5muse@gmail.com, Nov 4 '15 ip: 98.210.230.32

Name: Joe Tate

Title: Band Leader

Organization/Artist Name: The Hippie Voices

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.¹

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

³ [http://music.us/events](http://music.us/events)

⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. 2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”9 that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;10

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members;” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: tunesaxe@hotmail.com, Nov 5 ’15  ip: 97.47.68.75

Name: Rufus Tune

Title: Musician/Songwriter

Organization/Artist Name: Tunaduck Productions

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string; 

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

**Re: Support for .MUSIC Community-based Application**¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: scipherneo@gmail.com, Nov 6 '15  ip: 74.140.218.192

Name: Hunter Folks

Title: Mr.

Organization/Artist Name: Scipher

¹ [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁴

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is found in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who ‘demonstrate active commitment, practice and reporting.’ This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

compliance checks, with appropriate appeals mechanisms to fix compliance issues under
its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution
Process (MPCIDRP), including independent dispute resolution via the National
Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures
to allow governments, public authorities or IGO’s to challenge abuses of names with
national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC
domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet
domain name registry with over than 20 million domain names under management,
which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20}
that clarify its commitment to serve the global Music Community and public interest,
while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name
while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection
against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an
Early Access Program used by other registries) and helps spur adoption.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;2

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;3

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,4 FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.5

4. is the only .MUSIC applicant without a formal Community Objection filed against it;6

---

2 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
3 http://music.us/events
4 For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} \url{http://www.wordreference.com/es/translation.asp?tranword=commonly%20known}

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, \url{http://music.us/nielsen-harris-poll.pdf}

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11. According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, \textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature:

Name: Luiz Carlos Cunha

Title: Mr

Organization/Artist Name: reverbnation.com/lcc1

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination.²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² http://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\begin{footnotes}
\item[11] According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: valerie.smalkin@gmail.com, Nov 6 ’15 ip: 73.39.20.133

Name: Valerie Leonhart Smalkin
Title: Owner
Organization/Artist Name: Small King Music

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;\(^2\)

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;\(^3\)

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,\(^4\) FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.\(^5\)

4. is the only .MUSIC applicant without a formal Community Objection filed against it;\(^6\)

---

\(^3\) [http://music.us/events](http://music.us/events)

\(^4\) For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

\(^6\) A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. committs to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, Pg.20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-status/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community.” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Fielding Period: August 7-11, 2015, Pg. 1,2,3

15 http://music.us/board/

email authentication verification process; a priority-based launch phase\(^{17}\) for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \(^{18}\) a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias, \(^{19}\) the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments \(^{20}\) that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

---

\(^{17}\) Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

14 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a
15 http://music.us/board/
email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.

Re: Support for .MUSIC Community-based Application

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Anthony P. Marks

Signature: bookpierreanthony@gmail.com, Nov 6 '15  ip: 68.55.28.240

1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the **only** .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents **without discrimination**;

2. developed its Mission and Registration Policies using a **consensus-driven, bottom-up methodology** via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign **launched in 2008** spanning hundreds of events and community meetings;

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing **over 95% of music consumed globally** (i.e. a majority of the Community defined), including many entities **mainly** dedicated to the Community, such as the IFPI, FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.

4. is the only .MUSIC applicant **without a formal Community Objection** filed against it;

---

3 [http://music.us/events](http://music.us/events)
4 For example, the IFPI is considered an organization **mainly** dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).
6 A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants **must** follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

¹ [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392), DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

---

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment7…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”8

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible”9 that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;10

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community,” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392/?t:ac=1392, 20a
10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people)\textsuperscript{12} and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

\textsuperscript{12} http://www.wordreference.com/es/translation.asp?tranword=commonly%20known

\textsuperscript{13} Nielsen / Harris Poll, Quick Query Q3505, http://music.us/nielsen-harris-poll.pdf

\textsuperscript{14} https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?;ac=1392, 20a

\textsuperscript{15} http://music.us/board/

email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym or Doing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF), \textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. 1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited
Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;¹

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;²

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,³ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁴

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁵

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment” aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members.” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”)\textsuperscript{14} matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string;

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string:

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75\% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, \url{http://merriam-webster.com/dictionary/substantial}, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See \url{http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm}). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

Re: Support for .MUSIC Community-based Application¹

Dear ICANN and Economist Intelligence Unit (“EIU”):

Please accept this Letter of Support for DotMusic’s .MUSIC community-based application. For the Letter of Support rationale, please read the subsequent pages.

Signature: ohbrotherbigsistermusic@gmail.com, Nov 6 '15 ip: 75.133.88.233

Name: Penny Podjaske
Title: Musician
Organization/Artist Name: Oh Brother Big Sister

¹ https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the **only** .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents **without discrimination**;\(^2\)

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its **ongoing**, extensive public global communication outreach campaign **launched in 2008** spanning hundreds of events and community meetings;\(^3\)

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing **over 95% of music consumed globally** (i.e. a **majority** of the Community defined), including many entities **mainly** dedicated to the Community, such as the IFPI,\(^4\) FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.\(^5\)

4. is the only .MUSIC applicant **without a formal Community Objection** filed against it;\(^6\)

---

\(^2\) [https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392](https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392), 18a and 20c

\(^3\) [http://music.us/events](http://music.us/events)

\(^4\) For example, the IFPI is considered an organization **mainly** dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See [http://isrc.ifpi.org/en](http://isrc.ifpi.org/en)). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See [http://ifpi.org/what-we-do.php](http://ifpi.org/what-we-do.php)).

\(^6\) A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants **must** follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment”…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

8 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?ac=1392, 20a

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching\textsuperscript{11} or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people\textsuperscript{12}) and associated with the identification of the community defined. Most people, 1,562 out of 2,084 (i.e. 75% of the respondents) responded “Yes.”\textsuperscript{13} In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”\textsuperscript{14}) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;\textsuperscript{15}

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting, taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector.\textsuperscript{16} These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

\textsuperscript{11} According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). 1 https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails/1392, DotMusic Limited Application ID 1-1115-14110
Please accept this Letter of Support for DotMusic Limited’s .MUSIC community-based application because DotMusic:

1. is the only .MUSIC applicant that follows unified principles, ideals and mission that the entire Community subscribes to, such as: creating a trusted identifier and safe haven for music consumption, protecting musicians’ rights and intellectual property, fighting copyright infringement/piracy, supporting fair compensation and music education, and following a multi-stakeholder approach of representation of all types of global music constituents without discrimination;²

2. developed its Mission and Registration Policies using a consensus-driven, bottom-up methodology via feedback and universal principles collected in its ongoing, extensive public global communication outreach campaign launched in 2008 spanning hundreds of events and community meetings;³

3. is supported by an "(industry) community" of non-negligible, relevant organizations with members representing over 95% of music consumed globally (i.e. a majority of the Community defined), including many entities mainly dedicated to the Community, such as the IFPI,⁴ FIM, ICMP, IFACCA, IAMIC, ISME, A2IM, WIN, NAMM, RIAA, NMPA and others.⁵

4. is the only .MUSIC applicant without a formal Community Objection filed against it;⁶

² https://gtldresult.icann.org/application-result/applicationstatus/applicationdetails:downloadapplication/1392?t:ac=1392, 18a and 20c
³ http://music.us/events
⁴ For example, the IFPI is considered an organization mainly dedicated to the Community defined because the IFPI administers the International Standard Recording Code (ISRC), the international identification system and global industry standard for sound recordings and music video recordings (See http://isrc.ifpi.org/en). The IFPI’s activities serve the legitimate interests of the entire Community e.g. promoting the value of music, lobbying to serve the music sector’s interests in government and legislative issues, and taking down mass copyright infringing websites illegally distributing music affiliated with the entire Community (See http://ifpi.org/what-we-do.php).
⁶ A few spurious opposition letters were recently filed for the purpose of obstruction just before the Community Priority Evaluation began despite the community application being public for comments for over 3 years. Such letters are considered irrelevant because they were orchestrated by competitors. Furthermore, the senders are negligible in terms of size or relevance with respect to music as determined by a web search on those opposing entities i.e. none of these entities are globally-recognized music organizations of substantial size. Furthermore, the opposition is not of reasoned nature because it opposes ICANN-mandated Guidelines that community applicants must follow (e.g. Community eligibility policies must restrict membership to Community members). Such opposition is time-barred and has been developed with years of consultation with the ICANN Community. DotMusic does not claim to represent the interests of every single Community member as some opposition letters claim. However, pursuant to the Guidelines the DotMusic community application “has multiple organizations supporting the application, with documented support from organizations representing a majority of the overall community addressed” i.e. “has support from the majority of the recognized community member organizations.”
5. commits to align its music-tailored Registration Policies with its articulated community-based purpose to serve the legitimate interests of the Community;

6. commits to “use clear, organized, consistent and interrelated criteria to demonstrate Community Establishment…aligned with [its] community-based Purpose” and uphold its established Community definition of a “strictly delineated and organized community of individuals, organizations and business, a logical alliance of communities of similar nature that relate to music” that “encompasses global reaching commercial and non-commercial stakeholders, and amateur stakeholders;”

7. has independent testimonies and disclosures from 43 experts, including 33 Ph.Ds, that provide evidence and “conclusions that are compelling and defensible” that prove beyond reasonable doubt, that DotMusic’s community-based application for .MUSIC exceeds the CPE criteria for Community Establishment, Nexus and Support, agreeing that the defined community is accurate and matches the applied-for string:

---

7 The AGB also has no language disallowing membership based on participation in the community defined (e.g. in the prevailing .RADIO CPE Determination, the EIU was able to conclude that the .RADIO community is “clearly defined” and that, solely on the basis of being “participants in this clearly defined industry, they have an awareness and recognition of their inclusion in the industry community.” Pg.2). Furthermore, a non-exhaustive list of membership criteria was allowed by the AGB, which may include: (i) “a logical alliance members based on categories that are solely community-related” i.e. in the case of music, they are music-related (e.g. in the prevailing .HOTEL CPE Determination, the EIU awarded full points for Community Establishment for a community definition that is comprised of “categories [that] are a logical alliance of members,” Pg. 2); (ii) “self-identification” in a community e.g. identifying that they have a tie with the community (e.g. in the prevailing .OSAKA CPE Determination, the EIU awarded full points for Community Establishment and Nexus for a community definition that stated that: “[m]embers of the community are defined as those who are within the Osaka geographical area as well as those who self identify as having a tie to Osaka, or the culture of Osaka. Major participants of the community include, but are not limited to the following: […] Entities, including natural persons who have a legitimate purpose in addressing the community,” Pg. 2); (iii) allowing different types of membership just as long as there is demonstrable involvement in community-related activities that may vary among member constituent types (e.g. in the prevailing .ECO CPE Determination, the EIU awarded full points for Community Establishment stating that “the application dictates four types of members, whose cohesion and awareness is founded in their demonstrable involvement in environmental activities and who “demonstrate active commitment, practice and reporting.” This involvement may vary among member categories,” Pg.2); (iv) those who have a legitimate purpose in addressing the community e.g. by certifying to abide to a set of community-tailored registration requirements that are aligned with the goals of the community i.e. are aligned with the community’s mission and purpose.

10 http://music.us/expert/letters
8. has defined the Community consistently to match the string allowing all legitimate music constituents with the requisite awareness of the Community to be able to register a .MUSIC domain without a conflict of interest, over-reaching or discrimination.

9. has provided an independent poll, conducted by independent polling organization Nielsen/Harris Poll, to address whether the string and DotMusic’s defined community fulfill the “Nexus” criterion that requires that the string is commonly-known (i.e. known by most people) and associated with the identification of the community defined. Most people, 1562 out of 2084 (i.e. 75% of the respondents) responded “Yes.” In conclusion, a majority of the general public agreed that DotMusic’s associated definition of the community addressed (i.e. “a logical alliance of communities of individuals, organizations and business that relate to music”) matches with the string;

10. is governed by the multi-stakeholder global Music Community with a diverse Policy Advisory Board encompassing commercial, non-commercial and amateur music-related constituent types;

11. has enhanced safeguards to increase trust, protect copyright and prevent cybersquatting taking into consideration that Music is recognized by recent ICANN Resolutions and GAC Advice as a regulated, sensitive sector. These enhanced safeguards include: restricting eligibility to Community members with the requisite awareness of the Community defined without discrimination; only allowing legal music content and usage; no parking pages; stopping domain hopping; anti-piracy takedown policies; authorization provisions; permanent blocks; privacy/proxy provisions; true name/address mandates; trusted sender complaints; registrant validation via a mandatory two-step phone and

---

11 According to Merriam-Webster dictionary, “substantial” is defined as “considerable in quantity: significantly great” (See, http://merriam-webster.com/dictionary/substantial, Definition 3b) or “being largely but not wholly that which is specified”). Section 1855(d)(2)(A) of the Balanced Budget Act of 1997 defined “substantial proportion” is “significantly more than the majority” (See http://gpo.gov/fdsys/pkg/FR-1998-04-14/html/98-9810.htm). DotMusic delineated the Community based on MCMO membership and/or NAICS “music” subset codes (Every NAICS code is preceded by “music” to ensure the string matches the community defined and exclude entities without an association or essential relationship with “music” i.e. casual entities without the requisite awareness or recognition of the community are excluded). The substantial majority of the Community is represented by “Musical groups and artists” category (NAICS code 711130) which alone considerably exceeds all the other delineated “music” NAICS subset codes (limited to only “music” entities) combined.

15 http://music.us/board/
email authentication verification process; a priority-based launch phase\textsuperscript{17} for Community members belonging to Music Community Member Organizations (MCMOs); naming conditions only allowing registrants to register their name, acronym orDoing Business As; and, a Globally Protected Marks List (GPML) to protect famous music brands;

12. mandates that all Community members must certify their agreement to the music-tailored DotMusic Registration Policies, including restricting Content and Use to legal, music-related content and activities and not allowing parking pages;

13. commits to implement both proactive and reactive enforcement measures, such as proactive zone screening, Community crowdsourced enforcement and random compliance checks, with appropriate appeals mechanisms to fix compliance issues under its music-tailored .MUSIC Policy & Copyright Infringement Dispute Resolution Process (MPCIDRP), including independent dispute resolution via the National Arbitration Forum (NAF),\textsuperscript{18} a Sunrise Challenge process and appropriate procedures to allow governments, public authorities or IGO’s to challenge abuses of names with national or geographic significance;

14. has partnered with Afilias,\textsuperscript{19} the backend registry provider for .ORG, to power .MUSIC domains. Afilias has the strongest background, track record and experience of any other .MUSIC backend registry provider. Afilias is the world’s second largest Internet domain name registry with over than 20 million domain names under management, which is more than all other .MUSIC applicants combined; and

15. is accountable to the global Music Community through its Public Interest Commitments\textsuperscript{20} that clarify its commitment to serve the global Music Community and public interest, while also addressing any concerns the Community may have.

\textsuperscript{17} Registrants must comply with naming conditions only allowing them to legitimately register their own name while preventing illegitimate, bad faith registrations and user confusion. This phase provides better protection against abuse or impersonation, offers Community members a cost-effective alternative to the Sunrise phase (or an Early Access Program used by other registries) and helps spur adoption.
