

MEMORANDUM

FROM: Chairman
Address Council
Address Supporting Organization

TO: Chairman
Board of Directors
ICANN

DATE: 13 July 2006

SUBJECT: Proposed Global Policy

Dear Mr. Chairman:

This memorandum forwards a proposed global Internet number resource policy to the ICANN Board of Directors for ratification as prescribed by Step 7, Appendix A of the ASO MoU, dated 24 October 2004.

The proposed global policy is attached to this memorandum as Attachment A. It provides for the allocation of IPv6 address space from IANA to the RIRs. This proposed policy meets the threshold of being a global policy as defined in Section 5 of the ASO MoU in that it requires specific actions or outcomes on the part of IANA in order to be implemented.

Under the provisions of the ASO MoU, Appendix A, Step 6 the NRO Executive Council forwarded the proposed global policy to the Address Council on 6 June 2006. By this memorandum the Address Council has completed its review within the required sixty days specified in this step. As a result of this review the Address Council affirms that:

- a. Each RIR followed its defined policy development processes to reach a position of common agreement and a common text to describe the proposed global policy.
- b. The significant viewpoints of interested parties were adequately considered.

The Address Council considers the date of acknowledgement of receipt of this memorandum by the ICANN Secretary as the receipt date identified in ASO MoU, Appendix A, Step 9.

Sincerely yours,

Sebastian Bellagamba
Chairman
ASO AC
