Hello!

I am attempting to apply for a position with ICANN at the Los Angeles office. I have filled out the online application several times on my iPad (I do not own a laptop) in Chrome and have gotten to the end and clicked "Submit" only to have the application start all over again and not save any of my information.

Could you please look in to this and let me know if there's something wrong with the online form or if I need to access it differently?

Thank you!

-Sophia
