Dr. Steve Crocker
Chair of the ICANN Board

Ms. Heather Dryden
Chair of the ICANN Governmental Advisory Committee

Dear Dr. Crocker and Ms. Dryden:

This letter provides my motivation for my request to join the Second Accountability and Transparency Review Team (ATR2). As you can see from my résumé, my career has primarily been focused on or in support of Internet technical infrastructure. For the last 30 years, I have been involved, directly or indirectly, in essentially all facets of the resources for which ICANN was created to coordinate. Over those years, I have personally seen the advantages transparency and accountability in the administration of naming and numbering resources have provided to the growth of the Internet and believe I have had a small role in helping to facilitate that growth. As a result, I have a keen interest in doing what I can to ensure that future coordination of Internet resources is done in as open, transparent, and accountable fashion as is possible and believe I can help further openness, transparency, and accountability by participating in the ATR2.

When the Call for Volunteers was issued for the ATR2, I submitted my name to the Chair of SSAC for consideration. Having been honored to be selected for the role as SSAC representative to ATR2, I hereby submit my application to you for your consideration.

Sincerely,

David Conrad
Member of the ICANN Security and Stability Advisory Committee
