

THE KEY PLAYERS

Internet Corporation for Assigned Names and Numbers (ICANN) helps coordinate the world's Internet system of unique identifiers.

Type in a web address. The identifiers, ICANN helps coordinate, allow your browser to get to the right place.

Registries and Registrars

To make sure you get to the correct Internet address, ICANN has contracts with domain name registering companies (Registrars) and organizations responsible for operating Top-Level domains longer than two characters (Registries) around the world.

Contractual Compliance

Contracts are enforced through Contractual Compliance. The mission is to preserve the security, stability and resiliency of the Domain Name System and to promote consumer trust through prevention, transparency and enforcement.

Domain Name Holders

When someone has a complaint about a domain name, a registrar or registry, Contractual Compliance is often the first stop to try and resolve the complaint. Its online complaint filing system is easy to use and most users can expect a resolution within 17 days of filing.

COMMON COMPLAINTS HANDLED BY ICANN

Domain name transfer issues related to unauthorized transfers or unsuccessful transfer requests

Domain name renewal issues related to fees, renewal reminders or redemptions

Domain name registration information issues related to incorrect WHOIS data or access to WHOIS data

Registry Codes of conduct issues related to registry violation such as providing more favorable treatment to some registrars
