

**Please note:** This graphic shows the status of current and anticipated policy implementation work. Items above the date line show policies where implementation is in progress, and items below the date line show estimates for policy activities where implementation has not yet been directed by the Board.

| Key                                       |                               |                                     |  |
|---|-------------------------------|-------------------------------------|--|
| Current Implementation in Progress        | Implementation on Hold        | Board Consideration                 |  |
| Estimated Future Implementation Timeframe | Public Comment Period         | Preparation for Board Consideration |  |
| Policy Development Process Completed      | Operational Design Phase      |                                     |  |
| Estimated Future Implementation Timeframe | Internal Project Organization |                                     |  |

<sup>1</sup> Please note this policy implementation was split into two tracks - one for IGO identifiers and one for INGO identifiers. The IGO identifiers implementation was considered complete as of 1 August 2020. The INGO implementation is currently on hold. [Click here](#) to learn more.

<sup>2</sup> Please note this policy implementation was split into three tracks - INGO Claims System Specification, Protection of Red Cross & Red Crescent Identifiers and Protection of "Reserved Names". [Click here](#) for more info on the status of each track.
