CSC Findings of PTI Performance Report for the Month of

February 2018

Date: 12 March 2018

Overall Finding

The CSC completed review of the February 2018 PTI Performance Report and finds that PTI’s performance for the month was:

Satisfactory - PTI met the service level agreement at 96.9% for the month of February 2018. Missed service level agreements that were satisfactorily explained and not an indication of a performance issue:

a) Technical Check (Retest)
b) Technical Check (Supplemental)

Both the Technical Check (Retest) and Technical Check (Supplemental) missed service levels are subject to a CSC recommendation that would re-categorize this month’s performance for these metrics as 'met'.

On the evidence so far, the CSC does not regard this as a cause for concern.

Please refer to the Exceptions and Narrative for Reporting Period section of the February 2018 PTI performance report for a more detailed explanation of the missed SLAs.
