CSC Findings of PTI Performance Report for the Month of
August 2018

Date: 18 September 2018

Overall Finding

The CSC completed review of the August 2018 PTI Performance Report and finds that PTI’s performance for the month was:

Satisfactory - PTI met the service level agreement at 98.4% for the month of August 2018. The missed service level agreement was satisfactorily explained and not an indication of a performance issue:

Technical Check (Retest) – Routine

realistic SLA based on evidence. Relaxing the target overall would be unfair on those that provide high quality documentation and so reducing the threshold is the best course of action. However, the low number of requests then means this must be measured annually not monthly.

The CSC recommends that a SLA be determined for the maintenance of IDN tables and label generation rulesets. The Naming Function Contract calls for the maintenance of such a repository.
