Dear ICANN Team,

We would knowing the instructions and timeframe for submitting Whois models compliant with EU's GDPR and EU Member States' legislation.

a) May joint submission by a group of Registries for a group of TLDs be acceptable?

B) Is there any specific form for such submission?

C) It should be an operational, technical and/or legal description?

D) Should be in an explanatory form, or should be as a proposed amendment to Schedule 4 of the Registry Agreements?

E) What is the deadline for submission?

Thanks in advance.
