Motivation letter for the:

Call for Volunteer ATRT Members: Representing ICANN Advisory Committees and Supporting Organizations

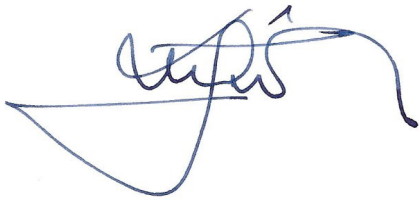

Dear Sirs,

Herein I would like to express my wish in taking part of this Second Review Team in ICANN's Accountability & Transparency

I'm one of the 21 members that compose the Brazilian Internet Steering Committee (CGI.br) and the CEO of the Brazilian NIC (NIC.br).

Being involved in Internet activities since 1988 and bearing the honor of having been elected two times for the ICANN Board for one of the ccNSO seats, I'm quite interested in to push for further progress and improvement of the ICANN projected image and its internal operations.

Thank you for your consideration.
