Dear Mr. Twomey,

I welcome your initiative to highlight the procedure of introduction of IDN ccTLD into the domain name system and I understand that well prepared planning in this area is of great importance.

In regard to that, I would like to inform you that Slovak Republic is not interested into implementation of its own IDN ccTLD, which includes "fast track" procedure as well.

In addition, I would like to remind you that based on my letter from July 2007 and the relevant re-delegation process, the responsible body is Ministry of Finance of the Slovak Republic and to accelerate the communication process, it would be most advisable to address all issues regarding domain names and internet governance to this public body.

Yours sincerely
