Internet Committee for Assigned Names and Numbers - ICANN

Marina del Rey, CA, USA

Email: rtcandidatures@icann.org

Ref: Position of Volunteer Review Team Member, Whois Policy

Dear ICANN,

In reference to ICANN's Call for Applicants, I hereby submit my interest in becoming a member of the WHOIS Policy Review Team, representing Government Advisory Committee (GAC). My Curriculum vitae is attached.

I have several years of solid professional skills on international privacy and data protection matters. I collaborated on the first legal book about Privacy Law published in Brazil, and since then I have worked in several projects on that area.

In particular, I have closely followed the ICANN procedures since 1999 as an At Large member representing the first Brazilian ALS for LAC-RALO - ALAC. I am also a substitute member of the Brazilian Internet Steering Committee since 2004.

I'm sure Whois procedures are one of the most important issues to be addressed worldwide, taking into account the different stakeholders' points of view and recognizing the need to include analysis from a privacy and intellectual property viewpoint. I believe I could be of help to address some issues and discuss it with other Review Team Members.

I agree to work as a non-remunerated collaborator, knowing this is a responsible and important position. As my CV shows, I have the required experience and professional skills, having good knowledge of the subject area of the review, and the proven ability to work in a group discussion and review towards building consensus.

Yours truly,

Omar Kaminski

Short Curriculum vitae
