**6. Statement about my knowledge of the GNSO:**

For a long time, I have been participating in ICANN work. That included participation in various issues when open to 'Public Comments'. This also included 'Public Comments' relating to GNSO issues. I particularly participated whenever comments for matters relating to GNSO Constituencies came up, including formation of Stake Holders Groups. I also participated in matters relating to GNSO budgets and future plans. I have been applicant of ICANN Fellowships for a number of times and have kept abreast with the current issues of the time, including those relating GBSO.

Presently, I am member of a GNSO Working Group (as an Independent Individual), seized with the task of 'GNSO Improvements'. The Group- 'OSC-CSG-WT' is Chaired by Olga Cavally, Vice-Chair GNSO and I had privilege of working there with such members as Gomes Chuck. I lead a particular sub-task too.

I have very good knowledge of the GNSO community and its structure and operations. While working in GNSO improvements WG, I had first hand knowledge of issues relating to its constituencies and worked with its representatives in WG to narrow down difference of opinions. Stake Holders Groups were being formed when I worked in WG.

**6.1. In Addition to the above:**

In addition to the above and independent of GNSO, I have qualifications and experience that is relevant to and makes me suitable for work relating to Accountability and Transparency Review Team.

I possess a sound knowledge of the subject areas and a strong team spirit with necessary flexibility and adaptability developed and demonstrated over many years in my association with myriad of professional bodies in various voluntary positions. I am an experienced Lead, Chair, Vice-Chair and Secretary etc. and able to command the respect of a group and guide it towards consensus while putting aside personal opinions and preconceptions. I have strong analytical skills honed over the years in my professional work and have found these to be useful in sorting through facts and opinions for evidence and conclusions as well as in handling conflicts in work teams and groups in ISOC and ICANN.

I am able and willing to devote the necessary time required for the review and committed to achieving its objectives. My record at ISOC and ICANN evidence my full participation in groups I have joined and I would bring the same level of commitment to the review. I have command over the spoken and written English language and I am accustomed to working with my colleagues of differing nationalities.
