Evidentiary Objections to Declaration of Jeffrey Levee

Jeffrey Levee Declaration ¶	DCA Objection	Sustained	Overruled
¶ 5: In May 2015, a two-day final hearing	1. Best evidence rule		
was held in the <i>DCA</i> IRP. On July 9, 2015,			
the IRP Panel issued a 63-page final	(Evid. Code § 1520).		
declaration ("Declaration"). Paragraphs 92-			
117 (pages 39- 54) detail the IRP Panel's			
findings regarding the merits of DCA's			
claims. The IRP Panel's discussion is			
devoted exclusively to the Board's			
acceptance of the GAC's Advice. The IRP			
Panel concludes that ICANN's Board did			
not act consistently with ICANN's Articles			
and Bylaws in accepting the GAC's			
Advice. (¶ 115.) With respect to all of			
DCA's other claims, the IRP Panel reaches			
no conclusion except to state in Paragraph			
117 that:			
[Plaintiff] had criticized ICANN			
for its various actions and decisions			
throughout this IRP and ICANN			
has responded to each of these			
criticisms in detail. However, the			
Panel, having carefully considered			
these criticisms and decided that			
the above [i.e., its finding regarding			
the GAC's Advice] is dispositive of			
this IRP, [] does not find it			
necessary to determine who was			
right, to what extent and for what			
reasons in respect to the other			
criticisms and alleged shortcomings			
of the 27 ICANN Board identified			
by DCA Trust.

the remainder of the new gTLD application			
process" (id. ¶¶133, 148-149). The IRP			
Panel concludes that DCA is the			
prevailing party and orders ICANN to pay			
DCA's costs. (¶¶ 139, 146, 150.)
