

Affidavit

In full awareness of the legal implications of a wrong affidavit I, John Jeffrey, want this affidavit to be filed with a court:

I am General Counsel and Secretary of the Internet Corporation for Assigned Names and Numbers (ICANN). I have worked for ICANN since 2003.

On May 24, 2018, I had a phone call with [REDACTED]
[REDACTED] the best of my knowledge, Tucows Inc. is the mother company of EPAG Domainservices GmbH, [REDACTED]

Our conversation was about Tucows Inc.'s and its affiliated companies, including EPAG Domainservices GmbH's, strategy on how to deal with possible implications of the General Data Protection Regulation on the collection and retention of WHOIS data in relation to second level domain names. [REDACTED] confirmed that as of May 25, 2018, Tucows Inc. and its affiliated companies, including EPAG Domainservices GmbH, will only collect registrant data but no data for the administrative and technical contacts. [REDACTED] also did indicate that EPAG will not permanently delete WHOIS data collected, except consistent with ICANN's policy, and if that changed he would notify ICANN before taking any such action.
