**ICANN Geographic Region(s) in which the applicant is a citizen and a resident:**

Europe

**Identification of any financial ownership or senior management/leadership interest of the applicant in registries, registrars or other entities that are stakeholders or interested parties in ICANN or any entity with which ICANN has a transaction, contract, or other arrangement:**

France Telecom is involved in registrar activities , but I have no management/leadership interest in this activity.

**Indication of whether the applicant would be representing any other party or person through her/his review team participation and, if so, identification of that party or person:**

I will not represent any other party.

**A two to three paragraph statement about the applicant's knowledge of the GNSO community and its structure and operations, and any details of his/her participation therein:**

I have been involved in ICANN since its outset in 1998 and was even involved in the preliminary work that led to its creation (Geneva meeting in July 98 and subsequent meetings). France Telecom is a member of the ISPCP constituency and I have represented the company since the creation of the constituency. I regularly attended ICANN meetings, including the most recent ones (Paris, Mexico, Sydney, Seoul), focusing on GNSO policy issues, GNSO structural review, ICANN's strategic plan, institutional issues and the JPA.

I therefore participated in the gradual evolution of the organisation but have also seen the growing expectations of the whole Internet community it has generated over the years.

**In addition to the above required information, volunteers are encouraged to self-identify with any GNSO SG / Constituency with which they feel most closely affiliated. If a volunteer is unclear about or chooses not to identify his/her affiliation, the GNSO Council will follow an internal procedure to allocate the volunteer to the most appropriate slot based on available information or further consultation with the volunteer.**
