This year we revisit ICANN’s North America Engagement Strategy for FY2019 and FY2020. This report summarizes the evolution of the ICANN North America Engagement Strategy over the past two years and provides a look at what comes next. Community participation played a key role in setting the direction for the next phase of our regional engagement efforts. I am grateful for the collaboration of diverse representatives from across the ICANN community.

ICANN plays an important role, not only in the administration of the Internet’s system of unique identifiers, but in convening the community that sets policy and determines the evolution of the Domain Name System. Bottom-up and diverse community participation is enshrined in the ICANN commitments and core values, as well as in the overall strategic and operating plans of the organization. Based on my recent experience convening stakeholders to address our regional engagement challenges, I am certain North America stakeholders will continue to play an important role in assuring the sustainability and effectiveness of the ICANN model.

As for implementation, help from ICANN stakeholders will continue to be key to our success. Specific focus areas – such as forming organizational partnerships, producing compelling content, and onboarding participants – will require combined efforts between the ICANN organization and regional community. This partnership will also be essential to tracking the metrics that will inform our progress and outcomes.

I look forward to embarking on the next stage of our engagement journey with you.
Why Engagement? ICANN’s Mission and Strategic Plan

“ENGAGEMENT” DEFINED

“The process by which an organization involves people who may be affected by the decisions it makes or can influence the implementation of its decisions.”

FROM ICANN’S MISSION, COMMITMENTS AND CORE VALUES

ICANN’s action must employ open, transparent, and bottom-up multistakeholder policy development processes, led by the private sector, including business stakeholders, civil society, the technical community, academia, and end users while duly taking into account the public policy advice of governments and public authorities, that (i) seek input from the public, for whose benefit ICANN shall in all events act, (ii) promote well-informed decisions based on expert advice, and (iii) ensure that those entities most affected can assist in the policy development process.

FROM THE ICANN STRATEGIC PLAN

Strategic Objective
Bring ICANN to the world by creating a balanced and proactive approach to regional engagement with stakeholders.

Key Success Factors

• Broad and effective participation from around the world in ICANN’s programs and initiatives demonstrated by an increase in engagement of countries and stakeholder groups worldwide.
• Successful implementation of, and reporting on, regional engagement strategies across all relevant ICANN regions.
• More geographic diversity of accredited registries and registrars.

How North America Differs from Other Regions

RELATIVE TO OTHER REGIONS...

• North America has a larger proportion of well-informed, active, and outspoken ICANN stakeholders.
• ICANN Global Domains Division (GDD), technical staff, and support functions are largely based in North America and have direct links to stakeholders.
• Government stakeholders in North America are strong supporters of ICANN and the multistakeholder model.
• Language and culture barriers are somewhat lower.

**POST-ICANN MEETING READOUTS**

Teaming with Internet Society (ISOC) Chapters and At-Large Structures around the region – ICANN organization and community members relay highlights of ICANN Public Meetings and conduct Q&A with small audiences.

**TECHNICAL CONTENT**

Working with the Office of the Chief Technology Officer (OCTO) – creating fact sheets, presentations, and information sources on topics in ICANN’s technical remit, for engagement with business, technical, and other stakeholder groups.

**PARTNERSHIP WITH UNIVERSITIES**

Along with our ICANN’s Public Responsibility Support team – approaching institutions with strong technology policy programs to create course content and recruit students and graduates for active ICANN participation.

**CAPACITY BUILDING**

Conducting hands-on policy training for stakeholder groups, while improving ICANN Learn training curriculum.

Supporting efforts such as North American School of Internet Governance (NASIG) and Internet Governance Forum USA (IGF-USA).
Global Engagement Goals From the ICANN Strategic Plan for FY2016–FY2020

North America Engagement Goals FY2019–FY2020

- Build awareness to grow and diversify ICANN multistakeholder base (and pipeline).
- Grow the knowledgebase of current and potential ICANN stakeholders.
- Grow stakeholder support of, and active participation in, ICANN.

- Strengthen Partnerships to Expand Outreach
- Focus on Issue-Based Engagement, with Improved Content and Messaging
- Support Enhanced Mentorship and Onboarding
## North America Engagement Tactics

<tbody>
<tr>
<td><strong>1. Strengthen Partnerships</strong></td>
<td>Engage with technical and professional associations to share knowledge, diversify stakeholder base, and co-host events – especially reaching geographically diverse areas – to create “local” communities.</td>
<td>Number of partnerships. Number of events hosted, audience size, follow-up activities.</td>
</tr>
<tr>
<td><strong>2. Focus on Issue-Based Engagement</strong></td>
<td>Begin outreach with issues that potential stakeholders are interested in, then steer them toward the appropriate working groups and policy development processes (PDPs). Develop more issue-based content.</td>
<td>Number of North America stakeholders who join working groups, PDPs, Reviews. Number of communications documents (or other content) produced, with accompanying impact measures.</td>
</tr>
<tr>
<td><strong>3. Support Enhanced Mentorship</strong></td>
<td>Work with Policy and Public Responsibility Support teams to strengthen onboarding processes and trainings. Encourage joining as observers for those who are just starting out.</td>
<td>Number of trainings held. Number of North America newcomers who “graduate” to active membership or participation.</td>

**Partnering with the Community:**
- Identify partner organizations
- Explain partner responsibilities.
- Team with At-Large Structures, “I-star” organizations, and others (universities, business organizations, etc.).

**Measurement:**
- Number of partnerships.
- Number of events hosted, audience size, follow-up activities.
- Number of North America stakeholders who join working groups, PDPs, Reviews.
- Number of communications documents (or other content) produced, with accompanying impact measures.
- Number of trainings held.
- Number of North America newcomers who “graduate” to active membership or participation.
Partners in Strategic Success

Successful execution of the North America Engagement Strategy depends in part on the work and collaboration of the following groups:

**TEAMS IN THE ICANN ORG – GLOBAL STAKEHOLDER ENGAGEMENT, GOVERNMENT ENGAGEMENT, PUBLIC RESPONSIBILITY SUPPORT, OFFICE OF THE CTO, COMMUNICATIONS, AND GLOBAL DOMAINS DIVISION:**

- Create content.
- Plan and co-host events.
- Identify potential stakeholders.
- Strengthen onboarding processes and mentorship.
- Strengthen messaging.

**SO/AC LEADS, STAKEHOLDER GROUPS, CONSTITUENCIES, NORTH AMERICAN REGIONAL AT-LARGE ORGANIZATION (NARALO), AT-LARGE STRUCTURES, ETC.:**

- Help track newcomers who participate in working groups and PDPs.
- Help create content and communicate value of participation.
- Complete the recruitment process to attract members.
- Inform and advise on ICANN org efforts.

**BROADER ICANN AND INTERNET COMMUNITIES BASED IN NORTH AMERICA:**

- Support identification of potential partnership organizations.
- Help develop trainings and conduct joint outreach.
- Identify potential stakeholders.
