TOP STORY

FY17 Q2 Stakeholder Call
15 February 2017
15:00 UTC

Join the Next Quarterly Stakeholder Call on 15 February

In the second call in our new format, you'll hear how ICANN has implemented community policy and recent news from the ICANN Board. The regional focus for this call will be on Africa and the Middle East. Everyone is welcome. If you haven't already done so, [register here](#).

15 February 2017 at 15:00 Coordinated Universal Time (UTC)

Live interpretation is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish. The call will be recorded and posted in all languages on the [Quarterly Reports page](#). Read the [full announcement](#).

ICANN NEWS

Contractual Compliance 2016 Annual Report Now Available

The Contractual Compliance team just published its 2016 annual report as part of ICANN's commitment to transparency. The narrative provides summaries on registrar and registry compliance, the audit program, a financial overview and the initiatives and performance measurements for the year.

Read the [Contractual Compliance 2016 Annual Report](#).

Counting Down to ICANN58 in Copenhagen

ICANN58 is less than four weeks away - it takes place from 11-16 March 2017 in Copenhagen, Denmark. Come and network with your peers in the community, engage in face-to-face discussions, ask questions and help develop and implement Internet policies.

If you need to obtain a visa to enter Denmark, you needed to submit your application by 10 February 2017. But if you don't need a visa, there's still time to [register for ICANN58](#). Before booking your travel, review the [visa requirements](#) on the ICANN58 home page.

A draft of the [ICANN58 block schedule](#) is now available. To help you manage your meeting experience, you can use the online [ICANN58 meeting app](#) or download the mobile app, available in app stores.

Download the ICANN58 mobile app. Now available in app stores.

The February 2017 Executive Team Board Report is now available!

SPOTLIGHT

ICANN Goes to SXSW: Join Us!

Thanks to your vote, ICANN will be hosting a panel during SXSW 2017. The session titled "Internet Kill Switch? Who's Got the Keys?" will be taking place on 10 March 2017. Our panelists will be debating whether or not an Internet kill switch really exists, and what you can do to keep the Internet secure.

More information, including how to attend, is available at <http://schedule.sxsw.com/2017/events/PP62840>.

GDD UPDATE

Results of IANA Functions Customer Survey Now Available

In January 2017, ICANN published the results of an annual survey that measures the perception of satisfaction among IANA functions customers regarding the services they receive. In the survey, which accounts for transactions completed between September 2015 and August 2016, 94 percent of respondents reported being "satisfied" or "very satisfied." Notably, 99 percent of respondents reported being satisfied with the accuracy of their transactions. Customers also identified accuracy as the most important measure of performance for the fourth consecutive year. [View the survey findings.](#)

DELEGATED NEW GTLDS

No New gTLDs Were Delegated in January

[See the full list here.](#)

NORTH AMERICA ACTIVITIES & HIGHLIGHTS

Attend ARIN on the Road in 2017

"ARIN on the Road" events provide the latest updates from ARIN, covering everything from Internet Protocol (IP) addresses and Autonomous System Numbers requests, IP version 6 (IPv6) deployment and ARIN's policy development process - to ARIN technical services, such as DNS security. Over the past five years, ARIN on the Road has traveled to 35 cities across the ARIN region.

In just a few days, ARIN on the Road will travel to Antigua. In March, the event travels to Little Rock, Arkansas, and in May to Las Vegas, Nevada, for a joint ARIN+NANOG on the Road. (NANOG is the North American Network Operators Group.) ARIN will add more events later in the year, so keep an eye on its [meetings page](#) for the latest details. If you'd like ARIN on the Road to make a stop in your city, email meetings@arin.net.

POLICY UPDATE

ASO Address Council Elects New Chair

[Filiz Yilmaz](#), community representative of the Réseaux IP Européens Network Coordination Centre (RIPE NCC), has been elected by the Address Supporting Organization Address Council (ASO AC) members as the new chair for 2017. Her appointment was confirmed during the ASO AC teleconference on 11 January 2017. ASO AC chair elections are held annually in January, and the term is for one year. The ASO AC also accepted the appointment of [Louie Lee](#), from the American Registry for Internet Numbers (ARIN)

region, and **Ricardo Patara**, from the Latin American and Caribbean Network Information Centre (LACNIC) region, as vice chairs of the ASO AC. The ASO AC also recognized Louie Lee for his nine years of service and leadership as ASO AC chair.

Initial Report on the IGO-INGO Access to Curative Rights Protection Mechanisms Published for Public Comment

In the domain name space, international governmental organizations (IGOs) and international non-governmental organizations (INGOs) may encounter difficulties to protect their names and acronyms against abuse. While the Uniform Domain Name Dispute Resolution Policy (UDRP) and the Uniform Rapid Suspension procedure (URS) are mechanisms to protect the marks of rights holders, not all IGOs and INGOs can use them due to the lack of trademarks or issues of jurisdictional immunity. Since June 2014, a policy development process working group in the Generic Names Supporting Organization (GNSO) has been tasked with developing policy recommendations that enable IGOs and INGOs to effectively access curative rights protection mechanisms. The working group has published an initial report with a set of preliminary recommendations and conclusions. [Read more](#) and participate in the public comment proceeding by 1 March 2017.

GAC Prepares for ICANN58

The leadership of the Governmental Advisory Committee (GAC) has been working to create an agenda in line with the topics raised by GAC members and with meeting requests from the ICANN community. In Copenhagen, the GAC plans to meet with the Generic Names Supporting Organization (GNSO), the At-Large Advisory Council (ALAC) and the ICANN Board. Additionally, the GAC will also dedicate considerable time to discussing its implementation of the new ICANN Bylaws and to ongoing discussions on new generic top-level domains (gTLDs) and intergovernmental organization protections.

GAC internal matters will be tackled throughout the week as well. All GAC working groups will meet and update the GAC on their work in plenary sessions. Lastly, the GAC will lead two cross-community discussions: a session on domain name system (DNS) abuse mitigation, proposed by the GAC Public Safety Working Group, and a session on how to better engage in ICANN, proposed by the GAC Underserved Regions Working Group.

Within the next month, you will find the final GAC schedule on the [ICANN58 website](#).

GNSO Nominates Candidates for the Second Security, Stability and Resiliency Review Team

On 19 January 2017, the Council of the GNSO unanimously passed a motion to nominate James Gannon, Denise Michel and Emily Taylor as its primary three candidates for the second Security, Stability and Resiliency Review Team (SSR2-RT). Furthermore, the GNSO nominated Howard Eland, Scott McCormick, Rao Naveed bin Rais and Norm Ritchie as alternates. As part of the selection processes for the SSR2-RT, these seven candidates **requested** GNSO endorsement for their participation in the review team. The GNSO Council formed a small team to review the candidacies. Noting the lack of gender and geographic diversity of the applicants, the GNSO Council also encouraged ICANN staff to explore ways to promote diversity in applications for future review teams.

ccNSO Drafting Team Begins Work

The Council of the Country Code Names Supporting Organization (ccNSO) appointed volunteers to draft the charters for two working groups in the ccNSO **policy development process** (PDP) on the development of a review mechanism for the decisions on delegation, revocation and retirement of country code top-level domains (ccTLDs). The focus will be on delineating and scoping the issues that need to be addressed through PDPs and on working methods. The drafting team's results will be included in an issue report. The report will be presented to the broader community at ICANN58, and then to the ccNSO Council for decision-making. The first meeting of the drafting team took place on 11 January 2017.

GNSO Council Mailing List Migrated to Mailman

In January 2017, the public mailing list of the GNSO Council was migrated to Mailman. This transition will allow anyone interested in GNSO Council activities to subscribe to the mailing list as an observer to

receive emails, access the [archives](#) and follow GNSO Council discussions in real time. To join the mailing list as an observer (without posting rights), [send your request directly](#) or email gnso-sec@icann.org. Meanwhile, you may access the [archive](#) of the mailing list, which contains all emails predating the migration.

ATRT3 Call for Volunteers Announced

Apply to be considered for the third [Review of ICANN Accountability and Transparency](#) (ATRT3). This review team will analyze and make recommendations to help ensure that ICANN is a transparent and accountable organization. To learn more about the ATRT3 Review and how to apply, click [here](#).

Request for Proposal: NomCom Review

ICANN is seeking a provider to conduct an independent assessment of its [Nominating Committee \(NomCom\)](#). The NomCom is an independent committee tasked with selecting members of the Board of Directors and other key positions within ICANN's structure.

This review will focus on the NomCom's purpose, operations, structures and accountability. [Click here to learn more](#). The deadline to apply is 17 February 2017.

At-Large Community Needs Your Input

The independent examiner ITEMS has published the initial report of the At-Large Review and seeks broad community input on its findings and recommendations. The report covers many areas, including the mandate and purpose of the At-Large community, its structure and effectiveness, regional and global meetings, funding issues and support staff. It proposes several recommendations that are based on quantitative and qualitative data collected through a global online survey, community interviews and secondary research. The [At-Large Review Working Party](#) played a critical role in the process by providing input, checking the accuracy of data and helping ITEMS develop targeted, concrete and implementable recommendations.

ITEMS will present its findings and recommendations during a webinar in early February and in an open session at ICANN58 - more details to follow. [View the report](#) findings and recommendations and [give your feedback](#).
