

Statement of Interest – Alejandro Pisanty

September 15, 2010

DNS stability/resiliency

I hereby affirm that my interest on the issues foreseen to be dealt by this comité is as follows:

I do not have a direct financial or monetary interest in any company that does business providing services that could accrue from the committee's work.

I do have academic and consulting involvements which will benefit from the knowledge acquired generally. None has as employer or client a Domain-Name-System operator (registry, registrar, etc.).

At present I am employed by the National University of Mexico (Universidad Nacional Autónoma de México, UNAM), on sabbatical leave at Centro de Investigación en Geografía y Geomática "Jorge L. Tamayo", A.C., both in Mexico City, Mexico. I have been engaged, with a honorary, in an oversight role for the "Juicio en Línea" (Online Justice) project of Tribunal Federal de Justicia Fiscal y Administrativa, by Asociación Mexicana de Impartidores de Justicia, A.C. (Mexican Association of Judges) with resources from Fondo Nacional para el Fortalecimiento y Modernización de la Impartición de Justicia. I have taken and may again take part in similar engagements.

Yours,

Alejandro Pisanty
