This Accountability and Transparency Review Team (ATRT) undertook the following:

Review of Master Draft and Report Appendixes

In order to be all on the same page, the Accountability and Transparency Review Team Members reviewed and crosschecked the draft final recommendations, in light of the feedback received.

The Review Team identified the sections of the report which required another iteration etc. The group stressed that consistency was quintessential in terms of wording across the whole document.

Content of appendixes was also analyzed. In line with a group decision, the Modus operandi adopted for meetings, conference calls will be added to this part of the report (supporting staff to provide extensive list).

Following (CLO)'s suggestion, the draft final report will be submitted to proofreaders unfamiliar with ICANN so that an objective grammatical check may be performed.

So as to meet the deadline prescribed by the AoC, Members of the Review Team are to provide their final comments by 28 December imperatively. No additional remarks or feedback will be incorporated after this date.
