Subject: RDAP webinar for contracted parties

Dear Contracted Party,

To help educate and inform contracted parties about the upcoming Registration Data Access Protocol (RDAP) requirements, the ICANN organization will hold two webinars on 11 April 2018.

RDAP enables users to access current registration data and was created as an eventual replacement for the WHOIS protocol. On 27 February 2019, ICANN org issued a notification to generic top-level domain (gTLD) registries and registrars of the requirement to implement an RDAP service by 26 August 2019.

The ICANN org will hold two identical webinars to accommodate multiple time zones. To facilitate global participation, interpretation services will be available in Arabic, Chinese, French, Russian, and Spanish.

Participants are encouraged to email questions prior to the webinar to globalsupport@icann.org. A question and answer session will conclude the webinar and a full recording will be published on icann.org for future reference.

Webinar Details and How to Attend:

11 April 2019

00:00 - 01:00 UTC

Universal Coordinated Time (UTC) zone information is available [here](#)).

11 April 2019

15:00 - 16:00 UTC
