Re

Dear ICANN,

I wish to formally thank you for giving me an opportunity to report to you the irrefutable behaviour I received whilst reporting a domain name under the '24-hour abuse policy'. The domain name essentially promotes defamatory hatred amongst the internet. It has been proven to have breached the law, and therefore the terms of use, it has a no removal policy, it has had 92,000 DMCA removal takedowns, it has promoted cyber-bullying, attacked personal characters, admitted it does not validate any allegation that defames an individual or a business and then it extorts such businesses to make them appear to look better, yet still refuse to remove content.

Only law suits have worked and people have resorted to suing Google as a secondary publisher, of which courts have found the content defamatory and ordered Google to take down the site and pay damages, and there are a bombardment of cases hitting Google right now, as I am witness to two of them. Most certainly the domain owner has been sued too and no ISP is immune from outside the USA. However, it is not about that.

It is about the harm to hundreds of thousands of people and your intention of governance of the Internet. Such registrar is DNC Holdings. Such domain name is revealed in this document. It is the intention of the writer that this document and its attachment be a transparent letter available to the public giving ICANN complete opportunity to act on this and that it be released to the public only if ICANN find no breach to the Terms of Use that the Registrar should have invoked. I come forth as only a messenger. I will tell you a bit more about myself down below.

I hereby comply with your request, and then I wish to make the further submissions I was not allowed to make to the Registrar which the Registrar (I believe) had an obligation to listen to which without a doubt, after 92,000 DMCA takedown requests and now real proof of violations of law by means of law enforcement judgements Redacted per Requester

Redacted per Requester

make this report known to ICANN and ask ICANN to make a decision on this matter for the benefit of the world, and to reduce the risk of litigation that DNC and ICANN are exposed to in every other jurisdiction other than the United States – which honestly should not even be a decision making factor, what is mentioned below should be the only factor. I also advocate for internet safety Redacted per Requester and help people out with

Anti-Bullying campaigns. I did not expect the aggressive response I received, especially with the trust in knowing about:

- Public Safety Agencies at ICANN are dedicated to assessing whether and seeking to ensure that the Domain Name System (DNS) and domain name registrations are not used to propagate, enhance, or further, unlawful activity, abuse, consumer fraud, deception, or malfeasance, and/or violations of law and;
- Supporting the ability of public safety organizations to investigate, prevent, attribute, and disrupt unlawful activity, abuse, consumer fraud, deception or malfeasance, and/or violations of national law that involve the DNS and domain name registrations and most importantly;
- Continuously assessing whether ICANN has responsive and timely mechanisms to develop and enforce ICANN contractual obligations with gTLD registries and registrars, (i.e., Registrar Accreditation Agreement, Registry Agreement);

*(\*In accordance with your INTERNET GOVERNANCE – ICANN Guide for Law Enforcement)*

You have asked me for:

- **Copies of your abuse report and any response(s) from the registrar.**
- **The list of domain names relevant to your abuse report.**

**Evidence such as emails, customer service tickets, date and time of telephone calls and/or screenshots that the registrar failed to:**

- **Take reasonable steps to investigate and respond to reports of abuse.**

**Please send the information and records requested above via reply mail (no more than 4 MB total) and do not change the email subject heading. Please provide records as attachments in .TXT, .PDF or .DOC(X) format.**

I now comply with your request and hope that ICANN can stand in the shoes of the Registrar and make a decision as ICANN at least showed dignity and competence. Redacted per Requester

The information I am giving is true and correct to the best of my knowledge and the sources who gave it, has been compiled and written in my own time, for no fee, and done so in good faith. Please see attached documents.

**P.T.O**

**In the next pages, you will find:**

**Attachment 1. Copies of my abuse report and any response(s) from the registrar.**

(They took my exploration request to make an abuse report as an abuse report and didn't even let it get that far, and took an immediate bias to the case. Attachment 1 contains the entire chain of the conversation.)

**2. The domain name relevant to the abuse report is:**

RipOffReport.com

**3. Such evidence is in Attachment 1.**

In fact, I was told (due to them interpreting it wrongly) when I tried to correct it, I would be banned from making any further disclosure with them and my email will be blocked.

They threatened detrimental action. They claimed to take steps but they took NO steps to investigate and respond to the reports of abuse, hence it ceased.

Their conduct was disgusting and in breach of their requirement under their Registrant Responsibilities. They completely designed their own story before I even had a chance to fully lay out the complaint, had it predetermined – and attacked me.

**4. Further evidence I was not allowed to induce:**

*The Registrar neglected to recognise the only onus to prove was the fact that RipOffReport.com has and is engaging in conduct that is in breach of the Registry Agreement. Such breaches include Terms of Use, such as anything no matter which country you are in – that is deemed unlawful activity, abuse, consumer fraud, deception, or malfeasance, and/or violations of law. I will even further make out that case here.*

- **Please note the case law I quoted also specifically quoting RipOffReport.com, making judgments of Defamatory content which originated on RipOffReport.com – onus of proof is shown, ordering costs and liability proven to breach Australian law.** Now abroad please see a list prepared by Shawn Richeson Contact Information Redacted who advises that he is also suing Adam Kunz, the CFO. He advises that suit is in the 169th judicial district in Bell County Texas. He advises that it can be found on the same URL and all the filed pleadings as well. The law suits are as against Xcentric Ventures (Owner of RipOffReport.com) ~ not including pending. I happen to know that

there are 3 more coming to the value of 8 million dollars. All below relate to Defamation, Crime, Copyright, Extortion, Fraud, False Publication, Backlink extortion & more that are in absolute violation of your intent for the governance under your ICANN Guide for Law Enforcement.

- If there was no proof of Copyright infringement then how would the Registrar not have taken notice of 92,000 DMCA takedown legal notices?

## **RIPOFF REPORT EMPLOYEES**

Darren M. Meade a.k.a Darren Mitchell Meade is responsible for the creation of numerous blogs and reports on the website Ripoff Report. He was paid over \$100K by Adam Kunz through a bank account at Bank of America in Fountain Hills.

### **WE RECOVERED PROOF OF PAYMENT - DATING BACK TO 2012:**

5) INDICTMENT: Darren Meade <https://goo.gl/swyGow>

At the direction of criminal mastermind Adam Kunz - Mr. Meade would create a fake persona of an aggrieved consumer and post online about his victimization.

On the domain RipoffReport.com Mr. Kunz & Mr. Meade have created over 200 aliases.

When Mr. Meade posts, he uses a different alias giving the illusion of a crowd affect to an aggrieved person's plight. Adam Kunz would then delete the IP logs from the domain to keep Mr. Meade in a stealth pattern of engagement upon his victims.

After Mr. Kunz quit paying Darren Meade, Mr. Meade went on an abhorrent posting episode against Adam Kunz and partner Ed Magedson.

Adam Kunz went to the Phoenix Police and filed a claim for extortion. The investigator looked into the matter and found Adam Kunz to be disingenuous and an accomplice to the crime Adam Kunz reported to Phoenix PD. After Mr. Kunz was caught in the lie, he withdrew his complaint and dropped his claim to Phoenix PD.

In the months to follow, Mr. Meade began running out of cash so he targeted several doctors in the Orange County area, once again pretending to be an aggrieved client of various doctors. The Newport Police department became aware of this criminal episode. An investigation ensued. The matter is still in the investigation phase.

Amy Thompson, Justin Crossman & Dana Zunich are employed by Adam S. Kunz.

Justin Crossman is the IT Expert responsible for SEO techniques utilized to cause reports to rank on Google.

Amy Thompson, Dana Zunich & her mother Cleone Bowen are surrogates that post under pseudonym on ripoff report.

Charles Margolis contacts the victims and arranges the extortion payments to Adam Kunz.

Ed Magedson is the straw man and judgment proof litigation magnet.

He attracts lawsuits and farms them out to the law firm of Jaburg & Wilk in Phoenix AZ.

Jaburg & Wilk and attorney Maria Speth look for target victims that posses error and omission insurance.

A nuisance lawsuit is filed by Mrs. Speth, a quick settlement with the insurance Company is proposed and elements of a frivolous litigation are then sealed by the court.

This method of shaking down insurance carriers has been extremely successful for the law firm of Jaburg & Wilk.

## **LAW ENFORCEMENT IS BEGINNING TO UNDERSTAND THE SCHEME**

James Rogers was recorded explaining that he was paid off by Maria Speth to keep quiet about Adam Kunz and his involvement in Ripoff Report.

The law firm paid Mr. Rogers money to not testify against Jaburg & Wilk in an Arizona cause of action.

Eventually, James Rogers was convicted and sent to prison on unrelated charges.

Shortly after Mr. Rogers was incarcerated, a replacement was hired by Mr. Kunz.

Michael P. Paris, is now performing similar functions.

INTEL: <http://www.clickanerd.com/forums/uploadfolder/INTEL-MICHAEL-P-PARIS.pdf>

Mr. Paris is a paid criminal and poster for Adam Kunz.

His job is to find a target victim business and pretend to be an aggrieved client of that business.

After Mr. Paris posts as the fugazi client of the target victim business, they employ the technical expertise of Justin Crossman to create anchor text back-links at a Company called Fiverr.com.

This process of back-linking causes a near immediate boost in rankings on Google, Yahoo & Bing.

The target victim business is then extorted for thousands of dollars to suppress the damage inflicted by Mr. Kunz and his group of criminals.
