

ICANN Staff

I would appreciate being considered for the WHOIS Review Team position left vacant by the resigning At Large representative.

I have always had a strong interest in WHOIS policy and practice as a result of my work and general curiosity about the functioning of the Internet. As a lawyer practicing in the field of intellectual property and Internet law, I have firsthand knowledge of both the important utility and significant limitations of the WHOIS as currently constituted and overseen. I am also aware of and sensitive to the important personal privacy issues, law enforcement issues and conflict of law issues that underlay WHOIS policy and practice.

I do not represent only or predominantly corporate or individual rights holders, individuals with privacy and civil rights concerns, or law enforcement. I do not believe that I harbor any significant bias or prejudice as respects any of the issues pertinent to the WHOIS debate.

I would enjoy the opportunity to assist in the improvement of WHOIS policy and operations through participation in the work of the Review Team as its At-Large representative.

Attached below is my SOI and a three page CV.

Please do not hesitate to contact me should you have questions or need further information.

Thank you.
