Section I: General Overview and Next Steps

The Ethiopic script community has formed the Ethiopic script Generation Panel (GP), which in turn has developed a *Proposal for the Ethiopic Script Root Zone Label Generation Rules* ([Proposal](#) and [Proposal Documentation](#) [PDF, 2.01 MB]). As per the LGR Procedure [PDF, 772 KB], this proposal is being posted for public comments to allow those who have not participated in the Ethiopic script GP to make their views known to the GP. Ethiopic script GP will now submit the final proposal with any changes to reflect the public comments, for evaluation by the Integration Panel (IP). If evaluation by the IP is successful, the Proposal for the Ethiopic Script Root Zone Label Generation Rules will be integrated into the Label Generation Rules for the Root Zone. Otherwise, the proposal will be sent to the GP with comments for further consideration and revision.

Section III: Summary of Comments

General Disclaimer: This section intends to summarize broadly and comprehensively the comments submitted to this public comment proceeding but does not address every specific position stated by each contributor. The preparer recommends that readers interested in specific aspects of any of the summarized comments, or the full context of others, refer directly to the specific contributions at the link referenced above (View Comments Submitted).

NS has suggested multiple editorial points including the following: abbreviations should be written in full form when used the first time, Background section should use reference citations, table numbering should be reviewed and align title of section 3.2 with the following text and the figure included in the section.

NS also suggests reconsidering code points 1247, 1256, 1250, 12F8, 1318 in the context of their limited use in Amharic language.

Section IV: Analysis of Comments

General Disclaimer: This section intends to provide an analysis and evaluation of the comments submitted along with explanations regarding the basis for any recommendations provided within the analysis.

These comments are being submitted to the Ethiopic script Generation Panel for their consideration and incorporation (as needed) in the final version of the proposal.
