### Section I: General Overview and Next Steps

The Georgian script community has formed the Georgian Generation Panel (GP), which in turn has developed a Proposal for the Georgian Script Root Zone Label Generation Rules ([Proposal](#) and [Proposal Documentation](#)). As per the [LGR Procedure](#), this proposal has been posted for public comments to allow those who have not participated in the Georgian GP to make their views known to the GP.

Georgian GP will now submit the final proposal for evaluation by the Integration Panel (IP). If evaluation by the IP is successful, the Proposal for the Georgian Root Zone Label Generation Rules will be integrated into the Label Generation Rules for the Root Zone. Otherwise, the proposal will be sent to the GP with comments for further consideration and revision.

### Section II: Contributors

*At the time this report was prepared, no community submissions had been posted to the forum.*

### Section III: Summary of Comments

*General Disclaimer: This section intends to summarize broadly and comprehensively the comments submitted to this public comment proceeding but does not address every specific position stated by each contributor. The preparer recommends that readers interested in specific aspects of any of the summarized comments, or the full context of others, refer directly to the specific contributions at the link referenced above (View Comments Submitted).*

No comments were posted.

#### **Section IV: Analysis of Comments**

*General Disclaimer: This section intends to provide an analysis and evaluation of the comments submitted along with explanations regarding the basis for any recommendations provided within the analysis.*

No comments were posted.
