### Section I: General Overview and Next Steps

To determine valid top-level Internationalized Domain Name (IDN) labels and their variant labels, the community had finalized the [Procedure to Develop and Maintain the Label Generation Rules for the Root Zone in Respect of IDNA Labels](#). The Procedure requires community-based Generation Panels (GPs), organized for relevant scripts, to convene and propose specific rules. These rules are evaluated and then integrated into the Root Zone Label Generation Rules (RZ-LGR) by the Integration Panel (IP). The Integration Panel (IP) has successfully evaluated the [Root Zone Label Generation Rules \(LGR\) Proposals](#) for five additional scripts, Ethiopic, Georgian, Khmer, Lao and Thai, submitted by the respective GPs, following the release of these individual proposals for public comments. The IP has integrated these proposals, along with Arabic script already integrated into the first version of the Root Zone LGR ([RZ-LGR-1](#)), to develop the second version of the Root Zone LGR ([RZ-LGR-2](#)). As per the Procedure, RZ-LGR-2 was released for [public comment](#) to gather community feedback for its finalization. The RZ-LGR-2 will now be finalized by the IP based on the comments received and published at <https://www.icann.org/resources/pages/root-zone-lgr-2015-06-21-en>. Proposals for additional scripts will be integrated in future versions of the RZ-LGR.

## Section II: Contributors

*At the time this report was prepared, a total of three (3) community submissions had been posted to the forum. The contributors, both individuals and organizations/groups, are listed below in chronological order by posting date with initials noted. To the extent that quotations are used in the foregoing narrative (Section III), such citations will reference the contributor's initials.*

### Organizations and Groups:

Name	Submitted by	Initials
Khmer Script Generation Panel	Rapid Sun	KhmerGP
Ethiopic Script Generation Panel	Dessalegn Mequanint Yehuala	EthiopicGP

### Individuals:

Name	Affiliation (if provided)	Initials
Pitinan Kooarmornpatana	Thai Script Generation Panel	PK

## Section III: Summary of Comments

*General Disclaimer: This section intends to summarize broadly and comprehensively the comments submitted to this public comment proceeding but does not address every specific position stated by each contributor. The preparer recommends that readers interested in specific aspects of any of the summarized comments, or the full context of others, refer directly to the specific contributions at the link referenced above (View Comments Submitted).*

KhmerGP states that it has reviewed the integrated files generated by the Integration Panel in the RZ-LGR-2.

EthiopicGP has also undertaken the review and confirms that the RZ-LGR-2 files fully and correctly represent the final Ethiopic script LGR proposal submitted by the generation panel.

PK thanks the Integration Panel for its support and affirms that the Thai script LGR proposal for the root zone has been correctly integrated into the RZ-LGR-2 files.

## Section IV: Analysis of Comments

*General Disclaimer: This section intends to provide an analysis and evaluation of the comments submitted along with explanations regarding the basis for any recommendations provided within the analysis.*

ICANN thanks the Generation Panels and their members for undertaking the review and confirming the integration of Ethiopic, Khmer and Thai script proposal.

As next steps, the RZ-LGR-2 will be finalized and published at <https://www.icann.org/resources/pages/root-zone-lgr-2015-06-21-en>.
