.ISLAM and .HALAL gTLDs

Endorsement Letters

January 2014

Who supports .ISLAM and .HALAL new gTLDs?

.ISLAM and .HALAL new gTLDs, applied for through Asia Green IT System have received several endorsement letters from different Islamic organizations and famous people around the world, and from different branches of Islam (Shia and Sunni as the main branches).

AGIT as the Muslim company applying for .ISLAM and .HALAL gTLDs, has an ongoing task to promote .ISLAM and .HALAL new gTLDs to the Muslim community to receive new supporting letters.

As a strategic approach, AGIT has tried to make International Islamic organizations be involved in the governance of .ISLAM and major Halal certification bodies to be involved in .HALAL policy making.

AGIT has been succeeded in receiving supporting letter for .ISLAM and .HALAL from the **Islamic Chamber Research and Information Center (ICRIC)**. We have also been succeeded in involving **HALALWORLD**, the only HALAL certification body which is accepted by *all Islamic countries*. There are many Halal certification bodies around the world but all of them are supported by one or few countries. HALALWORLD is OIC (Organization of Islamic Cooperation)'s Halal certification standard project which is accepted by all Islamic countries.

In particular these international organizations could act as a potential sponsoring organization. AGIT is currently working out the formalities of such relationship.

Islamic Chamber Research and Information Center (ICRIC) in association with **the Islamic Chamber of Commerce and Industry (ICCI)** which is under the umbrella of the **Organization of the Islamic Cooperation (OIC)** was established in 2003. ICRIC has a Board of directors consisting of 9 members from Malaysia, Jordan, Egypt,... plus Secretary General of ICCI and acts within the framework of its articles of association approved by the Islamic Chamber and with regard to 16 strategic principles included in its mandate for elevation of trade and economic ties among Islamic Countries.

AGIT has also recently started to open the opportunity to Muslim people to express their interest in .ISLAM and .HALAL gTLDs through online social media like Facebook (<https://www.facebook.com/DotIslam> and <https://www.facebook.com/DotHalal>) with thousands of fans.
