

## Annex II

### **Proposed PIC Spec Implementation of GAC Safeguards Applicable to all New gTLDs** (19 June 2013)

The following is a preliminary draft reference version of the Beijing GAC safeguards advice for safeguards applicable to all new gTLDs implemented as Public Interest Commitments – for discussion only.

---

#### **Specification 11** **Public Interest Commitments**

1. Registry Operator will use only ICANN accredited registrars that are party to the Registrar Accreditation Agreement approved by the ICANN Board of Directors on \_\_\_\_\_, 2013 in registering domain names. A list of such registrars shall be maintained by ICANN on ICANN's website.

2. Registry Operator will include a provision in its Registry-Registrar Agreement that requires Registrars to include in their Registration Agreements a provision prohibiting Registered Name Holders from distributing malware, abusively operating botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise engaging in activity contrary to applicable law, and providing (consistent with applicable law and any related procedures) consequences for such activities including suspension of the domain name.

3. Registry Operator will periodically conduct a technical analysis to assess whether domains in the TLD are being used to perpetrate security threats, such as pharming, phishing, malware, and botnets. Registry Operator will maintain statistical reports on the number of security threats identified and the actions taken as a result of the periodic security checks. Registry Operator will maintain these reports for the term of the Agreement unless a shorter period is required by law or approved by ICANN, and will provide them to ICANN upon request.
