Case Number: 01124261

This Registry Services Evaluation Policy (RSEP) request form should be submitted for review by ICANN org when a registry operator is adding, modifying, or removing a Registry Service for a TLD or group of TLDs.

The RSEP Process webpage provides additional information about the process and lists RSEP requests that have been reviewed and/or approved by ICANN org. If you are proposing a service that was previously approved, we encourage you to respond similarly to the most recently approved request(s) to facilitate ICANN org's review.

Certain known Registry Services are identified in the Naming Services portal (NSp) case type list under "RSEP Fast Track" (example: "RSEP Fast Track – BTAPPA"). If you would like to submit a request for one of these services, please exit this case and select the specific Fast Track case type. Unless the service is identified under RSEP Fast Track, all other RSEP requests should be submitted through this form.

Removal of searchable whois for certain XYZ's TLDs

1.2. Provide a general description of the proposed service including the impact to external users and how it will be offered.

Searchable Whois is a service which offers searchability capabilities on the Directory Services and is currently offered by XYZ for the TLDs .audio, .auto, .autos, .baby, .beauty, .boats, .cars, .christmas, .college, .diet, .flowers, .game, .guitars, .hair, homes, .hosting, .lol, .makeup, .mom, .monster, .motorcycles, .pics, .protection, .rent, .security, .skin, .storage, .theatre, .tickets, .xyz and .yachts (together, the "XYZ TLDs"). (Note that .car and .quest are not included because they do not have Searchable WHOIS in their RAs.) The XYZ TLDs have no searchable Whois users or queries. Therefore, the CentralNic registry would like to remove the searchable Whois from the XYZ TLDs (Approved Services) of the Registry Agreement.
