Subject: SSAC2018-21: Input to EPDP Team
To: Kurt Pritz, EPDP Working Group Chair
Cc: Marika Konings, EPDP Working Group Staff Support

Dear Mr. Pritz,

On 1 August 2018, the SSAC received a request from the Expedited Policy Development Process (EPDP) Team that is considering the Temporary Specification for gTLD Registration Data. The request asks SSAC to provide feedback on which sections of the Temporary Specification we support as is, support with modification, or do not support and recommend the elimination of.

The SSAC representatives already provided our input to your specific questions by the deadline.

Our most recent advice on this topic is SAC101,¹ and our correspondence SSAC2018-17² highlights sections of SAC101 that are relevant for the EPDP. The SSAC would ask for your consideration of these issues in your deliberations.

The SSAC greatly appreciates the effort the GNSO is undertaking and looks forward to supporting this effort.

Best Regards,

Rod Rasmussen
Chair, ICANN Security and Stability Advisory Committee
On behalf of the SSAC
