Technical Information Gathering/Sharing
Working Group of the
Country Code Names Supporting Organization
Inaugural Report
Marrakesh, June 2006
Eberhard W Lisse

Timeline

- At the CCNSO Meeting in Wellington Council had a discussion about “*best practice guidelines*”
- Council resolved to call for volunteers to form a working group to discuss the provision of technical information sharing / gathering in the ccTLD community and report back to the Council
- Call for Volunteers went out 2006-05-12
- Mailing List was created 2006-05-19
- WG was constituted 2006-05-30
- Chair appointed by Council 2006-06-14

Members

- David Archbold (.KY)
- Francisco Arias (.MX)
- Ondrej Filip (.CZ)
- Olivier Guillard (.FR)
- Hansang Lee (.KR)
- Eberhard Lisse (.NA) (Chair)
- Slobodan Markovic

Input

- **Case Studies**

Gather information on how do small, medium and large ccTLDs operate from a technical and policy perspective

- What works?
- What does not work?
- Which policies are **mandated** by technical issues?
- Which policies are **mandated** by operational issues?
- What other policies have been found useful?

Output

- **ccTLD Manager's Handbook**
 - **Technical Issues**

Document examples of the technical solutions in use in, and potentially appropriate for adoption by different sizes of ccTLDs.
 - **Policy Issues**

Document potential solutions to those policy issues that follow from the technical and/or operational issues detailed above and/or have been found useful.

Information Sharing

- The Handbook and its contents are intended to **assist** ccTLD Managers by **sharing** information about safe, secure and successful operational practices.
- They shall **not** be binding in **any** way on any ccTLD.

Work Done So Far

- **Definition of Scope**
 - Purely Technical?
 - Include Operational Issues?
 - Include Policy Issues?
 - Order?
- **Charter**
- **Report**
