

April 17, 2007

Dear Customer:

In December 2006, NeuStar renegotiated its contract with the Internet Corporation for Assigned Names and Numbers (ICANN) to maintain operational and administrative control of the registry for the **.BIZ** TLD. The current contract is available for public review at <http://www.icann.org/tlds/agreements/biz/registry-agmt-08dec06.htm>.

Section 7.3 of this contract permits NeuStar to increase wholesale registry fees by a maximum of 10% per year (from a baseline of \$6.00 per year), provided registrars are notified six months in advance.

This correspondence serves as official six-month notice that NeuStar will increase the wholesale registry fees charged for billable transactions processed in the **.BIZ** top-level domain (TLD). NeuStar is taking this action to align **.BIZ** domain prices more closely with those of competing global TLDs.

*As of October 19, 2007 at 00:00:00 GMT, all transactions processed in **.BIZ** will incur a \$6.42 fee per domain year with the exception of the Redemption Grace Period (RGP) fees, which will remain unchanged. This amount includes all registry fees due to ICANN.*

As always, NeuStar remains committed to maintaining the highest levels of infrastructure security and stability – and we will continue to offer attractive marketing rebate programs on an equal-access basis to all accredited and operational **.BIZ** registrars.

Please contact NeuStar's Registrar Support Team if you have questions or comments. Thank you.

Best regards,
Richard Tindal
Vice President, Registry Services
NeuStar, Inc.
