GNSO Purpose

• Responsible for developing and recommending to the ICANN Board substantive policies relating to generic top-level domains

• com, net, org, biz, info, aero, coop, museum, pro, name

• http://www.gnso.icann.org
Project management

• Analysis – issues report
• Requirements – policy development
• High level design – implementability
• Detailed design – policy in legal form
• Implementation – make changes
• Testing – measure against policy objective
• Monitoring – compliance and enforcement
• Continuous improvement – refine policy
Project timelines

- Vary depending on complexity of project and degree of early consensus
- Need to make incremental steps within months rather than years
- Continuously improve
- Keep volunteers motivated
- Improve ICANN’s reputation externally
WHOIS Project status

  – in requirements development
Transfers project update

- Transfers major policy upgrade – Apr 2003
- V2.0 – legal policy published July 2004
- Implementation due – 12 Nov 2004
- Testing not yet defined
- Monitoring will be critical and partially led to failure of v1.0
Deletes project update

- Deletes policy minor upgrade – Oct 2003
  - v1.1 Uniform deletion practice after expiry
    - special circumstances in case of UDRP dispute
- V1.1 – not yet in legal form
- Board approved Verisign wait list service – March 04
  - Registry agreement not yet revised
- Many new registrars focussed on re-registering names immediately after delete
  - Inefficient use of registry resources
  - Raises further policy and compliance issues
