RE: Registry Request #2008003, Release of Three-Character Numeric Names

Dear Matt,

ICANN has conducted a preliminary determination of RegistryPro's request to release three-character numeric names from Appendix K the .PRO Registry Agreement, in accordance with the Registry Services Evaluation Policy and process set forth at <http://www.icann.org/registries/rsep/rsep.html>.

ICANN's preliminary determination did not identify any significant competition or security and stability issues. This request will be approved by ICANN (i.e., approval is pending) as part of the process for considering and resolving current contractual issues being discussed between RegistryPro having to do with registrant criteria and enforcement.

Patrick
